

THE ANTIOCH NEWS.

VOL. XXIX.

ANTIOCH, ILLINOIS, THURSDAY, NOVEMBER 25, 1915.

NO. 12.

BIG MEN NAMED IN SUIT

Mrs. Durand Demands Redress from all Who Took Part in Slaughter

\$100,000 Damage Suit Filed

The chief executive of Illinois and the Secretary of Agricultural of the United States were among those named as defendants in a sensational suit for \$100,000 damages filed by the attorneys for Grace G. Durand and Scott S. Durand, owners of the famed Guernsey herd of cattle slaughtered on Crab Tree farm, Lake county, on Tuesday, Nov. 9.

The state and federal office holders named as follows are:

Edward F. Dunne—Governor of Illinois.

D. S. Houston—Secretary of Agriculture of the United States.

Three members of the Illinois Live Stock Commission—R. M. Patterson, L. F. Brown and B. J. Shanley.

O. E. Dyson—State Veterinarian.

J. A. Mohler—Veterinarian.

C. J. Marshall—Veterinarian for the state of Pennsylvania.

Frank Smejkal—Veterinarian who is alleged to have shot at Mrs. Durand.

A. G. Gieske—Veterinarian living at Barrington, Ill.

J. A. Stoekinger—Veterinarian in F. M. Kasper—Federal man in charge of food and mouth cases.

C. H. Coulson—Veterinarian living in Grayslake.

Ulysses G. Houck—Federal veterinarian.

Merely the praecipe of the suit was filed with L. O. Brockway, clerk of the circuit court of Lake county, by Attorney Diver. Mrs. Durand has retained as attorneys Robert S. Iles and Chas. J. O'Connor of Chicago and Attorney Diver of Waukegan.

"This action does not mean the abandonment of any other actions resulting from the slaughter of the herd of blooded cattle owned by Mrs. Durand. It does not mean the abandonment of contempt proceedings against the defendants or agents or others who violated the injunction and slaughtered the herd," said Attorney Diver when asked whether Mrs. Durand intended to drop prosecution on contempt charges.

Line and Shadow.
In life, line and shadow succeed one another as quickly as in an April day. If we turn our backs on our blessings and magnify our troubles we make ourselves miserable; if we look to the sunshine and leave the shadows behind us we shall find that we have much to be thankful for, and in most cases that the good things are real, while what seem evil things are but blessings in disguise—are warnings, or trials, or difficulties, which make the value of victory.

Extols Junius Brutus Booth.
A theatrical man, in an appreciation of Junius Brutus Booth, declares that "Intellectually he stood above any actor of his own or any other time." In justification of this praise these claims are made: Booth had a knowledge of seamanship (acquired as a midshipman), was an expert printer, had studied law and medicine, was an acute theologian, and spoke eight languages fluently, besides being "the greatest actor who ever spoke the English language."

Where Plants Grow on Wires.
In Porto Rico, where the atmosphere is moist and balmy, air plants often lodge in the most unusual places and produce the most unusual effects while growing. Frequently they establish themselves on telephone and telegraph wires. The insulation rots in places and the plants take root, grow and thrive.

FIRST TYPHOID VICTIM DIES WEDNESDAY MORN

The first instance in which the typhoid epidemic has proven fatal was in the case of Carl Hadlock who succumbed to the ravages of the fever after a little over one week's battle with the disease. Although he had been ailing some little time was not confined to his bed until a week ago last Sunday.

From the first his was a very serious case and although the physician and trained nurse did all in their power they were unable to combat with the disease and on Wednesday morning at 2:15 he quietly passed away.

The deceased was born at Elgin, Ill., March 6, 1888, but the greater part of his life has been spent in this village, where he has hosts of friends who regret his early demise. For the past four years he has been in the employ of the Public Service company and in his work of reading meters has visited practically every house in the village on many occasions and is therefore very well known in the community.

He is survived by his father and mother, one brother Arthur and one sister, Mrs. Edith Johnson, all of this village.

The funeral will be held at the home Friday afternoon at two o'clock. The remains will be laid at rest in the Antioch Hillside cemetery.

OBJECT TO BLACKSMITH SHOP IN RESIDENT DISTRICT

Wm. Pester formerly of this place, but who recently moved from Grayslake to Waukegan is encountering some little difficulty in erecting a blacksmith shop in that city. The Waukegan Sun has the following to say:

Residents of the West Side do not take kindly to the presence of a blacksmith shop in their midst and as a result presented their objections to the city council Monday night. The objectors were represented by Charles Edmonds.

A short time ago a Grayslake man named Pester purchased a triangular strip of land having frontage on the following streets: 77 feet on Water street, 97 feet on Glenn Rock avenue and 494 feet on South St. James street. He announced his intention of putting up a blacksmith shop and actually has broken ground.

The strip of land in question is in the heart of a residence district and adjacent property owners do not take kindly to the idea. They made Mr. Edmonds their spokesman to the council.

Corporation counsel asserted that if it is desired to stop the erection of the building it must be done by means of an ordinance. He said the ordinance would have to provide that blacksmith shops could not be put up in residence districts, giving the council the power to pass such an ordinance.

Dietmeyer at once moved that the corporation counsel prepare such an ordinance and present it for passage at the next council meeting. He said he did not approve of having the blacksmith located on the proposed site and thought that the complaint of Mr. Edmonds and others were just.

His Handicap.
"As I was engaged in the very disagreeable and undignified task of splitting up some hickory knots yesterday," related Jay B. Iden, the poet, "a wayfarer came along and offered to relieve me of the job in return for a pair of my old trousers. Unfortunately, I had them on at the time and the reading circle was convening in the house. On that account I was unable to avail myself of his kind offer."—Kansas City Star.

"Abide With Me."
The famous hymn, "Abide With Me, Fast Falls the Eventide," was written by Henry Francis Lyte, a minister of the church of England, born at Kelso, Ireland, in 1796. He wrote it when suffering from an incurable disease which he knew must soon end his life.

Some Little Promiser

Defeated candidates for Woodstock postoffice who received letters of endorsement from Representative Thos. E. Graham and it is said that they have decided to have them framed and hung in conspicuous places so that Tom's constituents may have access to them more easily than if the letters remained in the possession of the ones for whom they were written. Graham is said to have given his heartiest approval to the candidacies of J. C. Donnelly, John Bolger, John McGee and Will Frame. Standing by five he stood no chance to lose out in the final round-up. —Harvard Herald.

FRUSTRATE SMUGGLING OF DOPE

Sheriff Griffin Finds Four Bottles of Morphine in 2 Packages of Tobacco

GOVERNMENT IS NOTIFIED

A daring attempt to smuggle "dope" to two prisoners in the Lake county jail Saturday afternoon was frustrated by the watchfulness of Sheriff Griffin. The "dope" was contained in two packages of tobacco. The prisoners for whom the drug was intended are Chas. Applegate and Arthur Conway, two government prisoners, who have been locked in jail for the last six weeks.

Last Saturday afternoon a little package arrived at the county jail. It was addressed to Arthur Conway. The sheriff hesitated about giving it to him for he thought possibly it might contain some habit-forming drug, although both Conway and Applegate have been getting along without the "dope" for the last ten days and claimed to be cured. "It's only a couple of packages of Tip Top tobacco," Conway said to the sheriff. "Open it if you doubt my word."

The sheriff did look at the package. There was no indication that the government seal or tin foil had been tampered with. The package felt hard and the sheriff pulled back the tin foil. The contents looked all right, still the sheriff was not convinced. He thought that perhaps the tobacco had been saturated with "dope." He was upon the point of keeping the two packages so they could be inspected by a physician and started out to buy two new packages of the same tobacco for the men. Acting upon a "hunch," however, he pulled back more of the tobacco in one of the packages and uncovered two good sized bottles of morphine in a soluble form. The were also hypodermic needles in each bottle. The other package of tobacco contained the same amount of morphine. An examination by a physician showed the solution of morphine to be one of the strongest that can be made.

The bottles were turned over to U. S. Commissioner Lewis F. Mason and the sheriff thinks it will be possible to locate the person who smuggled them.

A swindler with a brand new game is at work in this vicinity at present and if he calls on you you will do well to order him off the place. Parties who pretend to have something good to sell and who tell you that they are giving you something for nothing have visited this vicinity with almost every kind of goods but this fellow is working among the farmers putting in ranges on free (?) trial. But after he has installed the range, just as an agreement of good faith on your part he requires you to sign a form he has with him. This innocent form proves to be a promissory note calling for an amount which is an exorbitant price for the range which is of the cheapest grade. He then tries to bluff the singer of the note into paying. It is a game that many will fall into with their eyes open, so take warning and look out for the range peddler, who tries to place a stove in your kitchen.

Trick of the Human Eye.
Although drops of falling rain are known to be almost spherical, they appear simply as streaks to the eye. This is because an indefinite number of images of the drop are impressed on the retina of the eye and, owing to persistence of vision—the retention of an image on the retina for a fraction of a second after the object has passed—the eye gets the impression of a streak. It is this that causes the spokes of a rapidly rotating wheel to appear blurred and that makes motion pictures possible.

Fresh Beginnings.
Be patient with everyone, but above all with yourself. I mean do not be disturbed because of your imperfections, and always rise up bravely from a fall. There is no better means of progress in the spiritual life than to be continually beginning afresh and never to think that we have done enough. —Francis de Sales.

SUDDEN DEATH OF MRS. GEORGE KENNEDY

Mrs. Sarah Kennedy, one of Lake county's pioneer residents, died at her home at Hickory at Monday following an illness of ten days. A week ago last Saturday Mrs. Kennedy, accompanied by her husband, Geo. Kennedy, drove from Hickory to Kenosha where they spent the day with relatives and friends. Mrs. Kennedy suffered a chill upon returning home and the next day was taken to her bed with pneumonia. Her condition gradually became worse until she passed away.

On Monday, Nov. 1, Mr. and Mrs. Kennedy celebrated their golden wedding anniversary. A family dinner party was held and the couple were the recipients of many costly and beautiful presents.

Mrs. Kennedy is survived by her husband and three children, Mrs. Martin of Millburn, Mrs. Fred Achen of Kenosha and Frank Kennedy of Hickory. Mrs. Kennedy was 71 years old and had been a resident of Lake county nearly all her life.

ANNOUNCE FORMAL ORGANIZATION OF ST. IGNATIUS CHURCH

Right Rev. Charles P. Anderson, D. D., bishop of the Diocese of Chicago, has announced the formal organization of St. Ignatius Episcopal church, Antioch, and has appointed the following finance committee: Chase Webb, W. H. Kelly, W. H. Oamond, J. E. Brook and Ernest Brook. In placing St. Ignatius upon the Diocesan list Bishop Anderson also announced his intention of visiting Antioch during the spring and administering the sacrament of Confirmation. He is the head of the World Commission on Faith and Order and one of the most prominent clergymen in the United States.

A congregation which thronged the church to its doors attended a special musical service in St. Ignatius on Sunday afternoon. The vested choir of St. Lawrence's church, Libertyville, rendered the musical portion of the service which was especially arranged for the occasion. Rev. Edward S. White of Libertyville, made a short address commending the people of Antioch for the marvelous progress made in the Antioch church, which has been in existence less than five months. At the same time, he administered the sacrament of baptism to William Edward Brook, son of Mr. and Mrs. Ernest Brook. Following the service, the members of the Ladies' Guild served supper to the visitors at the home of Mr. and Mrs. Chase Webb.

Brought Here for Burial

On Thursday morning of last week the deceased had been ill of tuberculosis for sometime and although it was known that recovery was impossible yet her death came very suddenly and unexpectedly.

Mrs. Pangburn was born in Antioch but with her parents moved to Waukegan when a child. She was 23 years of age and is survived by her husband and a little daughter 20 months old besides her father and mother, two sisters and two brothers.

The funeral was held at the home Saturday morning and the remains were brought to this place for interment. Mrs. Pangburn is a granddaughter of Mr. and Mrs. N. Pullen and also of Mrs. C. B. Harrison of this place.

Real Meaning of Phrase.
The expression in the prayer book, "kindly fruits of the earth," has for most persons no definite meaning because of the difference in significance now attached to the word kindly from that used when the expression was first written. The word kindly in that connection means as nearly as possible "of its kind," and the expression "kindly fruits of the earth" meant "the fruits of the earth each after its kind."

Must Go on Forever.
Time is like a river made up of the events which happen, and a violent stream; for as soon as a thing has been seen, it is carried away, and another comes in its place, and this will be carried away, too.—Marcus Aurelius.

Scarlet Fever and Milk.

Scarlet fever is practically unknown in the tropics and doctors say this is because so little fresh milk is drunk there. The streptococcus, which occurs in large quantities in most raw milk is always present in scarlet fever and experts see in that a cause and effect.

CLIPPINGS OF INFORMATION

Editor H. E. Zimmermann of the Standard Democrat, on Wednesday received formal announcement from Senator Husting of Mayville, that the senator had on Saturday forwarded a letter to the postmaster general recommending him for appointment to the postmastership of Burlington.

It is stated that the Borden company at its Genoa Junction plant is making preparations to install new machinery for the manufacture of powdered milk.

Thos. Jones, aged 63, caretaker at the Cummings summer home at Palm Beach, Pistakee Bay, dropped dead there at 9:05 Sunday morning.

The Harvard public school which consume about 15,000 gallons of water per day, have been getting their water free of charge, but hereafter same will have to be paid for at the regular meter rate.

The green houses at Crystal Lake are doing quite a business at this time, Frank Schramm, the proprietor, is shipping 600 carnations, 400 chrysanthemums and 50 to 60 bunches of pompos to Chicago daily.

Golf "bugs" of Richmond hope to acquire a 200 acre tract of land near that village for golf grounds. Their desire is to obtain the grounds at an early date so as to have them ready with the opening of the spring season.

It is reported in Libertyville that the Sheldon school will again be moved from Chicago to the old site in Area about December 1. The school and connecting offices were moved to Chicago about two years ago, but it is thought by those who seem to know that the expense of keeping the school and offices in that city running is too great, hence the decision to move back to Area.

To Hang Pictures.

Pictures hung by a single nail turning it around. The single turn this makes in the wire near the hook prevents slipping.

Sunset Gun.

Paragraph 210 of the Regulations of the United States army reads: "At posts supplied with ordnance and with ammunition for the purpose of a morning and evening gun will be fired daily at reveille and retreat." As the flag is run up at sunrise and down at sunset simultaneously with the firing of the gun, it is probable that a salute to the flag is intended.

Famous Artificial Limbs.

Famous in history is the iron hand of Goetz von Berlichingen, a knight of medieval Nuremberg; and there was another nobleman of the same epoch who had an iron foot weighing ten pounds, with which, being an irascible person, he could kick so hard that his servants stole the foot and threw it into the Rhine.

Hard Stuff.
"This is what I call a story with a punch in it," remarked the popular fiction expert. "A punch," rejoined Mr. Growcher. "It impressed me more like moonshine liquor."

Leave For an Extended Trip

A merry party left Grayslake, last week for an extended trip in the west, which will surely be enjoyed by every one making the trip. Those in the party are: Mrs. Louise Thomas, Mrs. Amelia Winkel, Mrs. Baldwin and Miss Mabel Turner. Mesdames Thomson and Baldwin will make their home in or near Los Angeles, and will be gone six months. Mrs. Winkel will live in a small suburb of that great city and will remain indefinitely. Miss Turner will settle in San Francisco, where it is her intention to remain permanently.

HERMAN SEIDSLAG ACCIDENTALLY SHOT MONDAY NIGHT

An accident in which one life was sacrificed, took place at the Herman Seidslag home at English Prairie Monday evening of this week.

In company with a friend Mr. Lewis Peesink of Chicago, Mr. Seidslag had spent the day in hunting. Upon their return home Mr. Peesink following his usual custom of taking precaution with firearms, was in the act of removing the loaded shells from the gun. In some inexplicable manner one of the shells was discharged and to his horror Mr. Seidslag beheld his friend Mr. Seidslag sway and fall to the floor. He had received the full charge in his right side and his death was instantaneous.

Mr. Seidslag was about sixty years of age and is survived by his wife and seven children, three daughters and four sons. The funeral will be held tomorrow (Thanksgiving day) at one o'clock in the afternoon at Wilmot.

The Play "Mother"

The Chicago Dramatic club on Saturday, Nov. 27, at 8:15 p. m. will present a four act play entitled "Mother." It is a strong heart interest interspersed with bits of sparkling comedy that will make it appeal to all.

This beautiful play has not only met great success on the legitimate stage but is now attracting crowds to the moving picture houses. The Chicago Dramatic club is well known in Antioch having appeared here in a number of late New York and Chicago successes. We assure all who attend a delightful and profitable evening. Read the program on page 4. Reserved seat tickets on sale at King's drug store and at the box office.

THOUGHT SHE KNEW

Young Lady, Testing Her Power of Refuse, Declared It to be Really the Right Thing

A great many people who flatter themselves that they are judges of coffee or other beverages may learn a lesson of caution from the experiments carried on by Sir Hiram Maxim when he was trying to find a palatable preparation of wheat and coffee. It occurred to me, says Sir Hiram in "My Life," that very few people knew much about coffee. One Sunday I brought out from the Maxim Lamp works about thirty young men and women. My stenographer was also present; she was one of those young ladies that know all—from whose decisions there is no appeal.

I had cleared off a long bench and arranged on it a large number of cups, milk, sugar, cream, much coffee, and plenty of apparatus for making coffee. I got from the army and navy stores kernels. These I freed from dust and dirt, roasted and ground, and mixed with three times their weight of chicory. I was ready for the test.

My shorthand writer came in, tasted the Mocha, the Java, the Costa Rica, and pronounced them all very bad. She then tried some of my wheat coffee, which she said, was also bad, but not so bad as the others. But when she reached the mixture of sittings and chicory she was delighted. "That is coffee!" she said, with an air of finality. "That's it! That's the right stuff!"

In all probability the young lady had never tasted a cup of genuine coffee in her life until that Sunday morning. —Youth's Companion.

The Place for Lovers.

Ian McLaren wrote that Gaelic is the best of all languages for terms of endearment, that it has fifty ways of saying "darling." The old tongue of the Isle of Man, a picturesque island almost equally near to Ireland, Scotland and England, is said to be even better furnished with terms for the use of lovers, that it has—or had—ninety-seven ways of saying "my dear."

Polenta.

Polenta is the chief food of the poorer classes in Italy. It is a porridge made usually of Indian meal, but formerly, and still in the fall, of chestnut meal. It is very similar to our cornmeal mush.

Millburn Mutual Insurance Assessment

The losses for 1915 of the Millburn Mutual Insurance Company amounting of \$12,761.52, the Directors have levied an assessment of three dollars and fifty cents, (\$3.50) on each one thousand dollars insured. It is due and will be called for in December 1915.

John A. Thain, Secretary, Millburn, Ill., Nov. 2nd, 1915.

SYNOPSIS.

At a vestry meeting of the Market Square church, Gail Sargent listens to a discussion about the sale of the church tenements to Edward E. Allison, local traction king, and when asked her opinion of the church by Rev. Smith Boyd, she says it is apparently a lucrative business enterprise. Allison takes Gail riding in his motor car. When he suggests he is entitled to rest on the laurels of his achievements, she asks the disturbed "Why?" Gail, returning to the question: "Why?" Gail, returning to the question: "Why?" Gail, returning to the question: "Why?"

CHAPTER VIII.—Continued.

"You are blaming the church with a fault which lies in the people," protested the rector, shocked and disturbed, and yet feeling it his duty to set Gail right. He was ashamed of himself for having been severe with her in his mind. She was less frivolous than he had thought, and what she needed was spiritual instruction. "The people are lukewarm."

"What else could they be with the watery spiritual gruel which the church provides?" retorted Gail.

"I am interested in knowing what your particular new religion would be like," remarked Daddy Manning, his twinkling eyes resting affectionately on her.

"It would be a return to the simple faith in God," Gail told him reverently. "It is still in the hearts of the people, as it will always be; but they have nowhere to gather together and worship."

"Manning laughed as he debated the point of sarcasm. According to that we are wasting our new cathedral."

"Absolutely!" and it struck the rector with pain that Gail had never looked more beautiful than now, with her cheeks flushed and her brown eyes snapping with indignation. "Your cathedral will be a monument, built out of the profits wrung from squalor, to the vanity of your congregation. If I were the dictator of this wonderful city of achievement, I would decree that cathedral never to be built, and Vedder court to be utterly destroyed!"

"It is perhaps just as well that you are not the dictator of the city," the young Rev. Smith Boyd gazed down at her from his six feet of serious purpose, with all his previous disapproval intensified. "The history of Market Square church is rich with incidents from one source of interest, but, suppose there is no sincerity, no conscience, no consecration in Market Square church?" His deep, mellow baritone vibrated with the defense of his purpose and that of the institution which he represented. "Why do you suppose our vestrymen, whose time is of enormous value, find a space amid their busy working hours for the affairs of Market Square church? Why do you suppose the ladies of our guild, who have agreeable pursuits for every hour of the day, give their time to committee and charity work?" He paused for a hesitant moment. "Why do you suppose I am so eager for the building, on American soil, of the most magnificent house of worship in the world?"

Gail's pretty upper lip curled. "Personal ambition!" she snapped, and, without waiting to see the pallor which struck his face to stone, she heeled her way out through the mud to her coupe.

CHAPTER IX.

The Storm Center of Magnetic Attraction.

"Brother Bones," said Interlocutor Ted Teasdale commandingly, with his knuckles on his right knee and his elbow at the proper angle.

"Yes, sir, Mr. Interlocutor," replied Willis Cunningham, whose "black-face" makeup seemed marvelously absurd in connection with his brown vandyke.

"Brother Bones, when does everybody love a storm?"

"I don't know, Mr. Interlocutor," admitted Brother Bones Cunningham, touching his kinky wig with the tip of one finger. "When does everybody love a storm?"

Interlocutor Ted Teasdale roved his eye over the assemblage, of fifty or more, in his own ballroom, and smiled in a superior fashion. The ebony-faced semicircle of impromptu minstrels, banded together that morning, leaned forward with anticipatory grins. They had heard the joke in rehearsal. It was a corker!

"When it's a Gail," he replied, and Gail Sargent, at whom every eye was turned, laughed, flushed prettily, and the bones and tambos made a sound, and the interlocutor an-

nounced that the Self Help Glee club would now sing that entrancing ditty, entitled "Mary Had a Little Lamb."

It was only in the blossom of the evening at Ted Teasdale's country house, the same being about eleven o'clock, and the dance was still to begin. Lucille Teasdale's vivid idea for making her house party notable was to induce their guests to amuse themselves; and their set had depended upon hired entertainers for so long that the idea had all the charm of distinct novelty. Fine? No end of it! One could always be sure of having a lively time around Lucille and Ted Teasdale and Arly Fosland. Gerald Fosland was at this party. Fine chap, Gerald, and beautifully decent in his attentions to Arly. Pity they were so rotten bored with each other; but there you were! Each should have married a blonde.

Gail Sargent fairly scintillated with enjoyment. She had never attended so brilliant a house party. Her own set back home had a lot of fun, but this was in some way different. The people were no more clever, but there were more clever people among them; that was it. There had been a wider range from which to pick, which was why, in New York, there were so many circles, and circles within circles.

The men whom Lucille and Arly had collected were an especial joy. They had all the accomplished outward symbols of fervor without any of its oppressive insistence. Gail, as an agreeable duty to her new found self, experimented with several of them, and found them most amusing and pleasant, but nothing more disturbing.

Dick Rodley was the most persistent, and, in spite of the fact that he was so flawlessly handsome as to excite ridicule. Gail found herself, by and by, defending him against her own iconoclastic sense of humor. He reached her after the minstrel show, while Houston Van Ploon and Willis Cunningham were still struggling profanely with their burnt cork, and he stole her from under the very eyes of Jack Larby, while that smitten youth was exchanging wit, at a tremendous loss, with caustic Arly Fosland.

"Have you seen the new century plant in the conservatory?" Dick asked, beaming down at her, his black eyes glowing like coals.

He strolled with Gail to the seat behind the rose screen, but it was fully engaged, and he led the way out toward the geranium alcove.

"Where is the century plant?" He was a tremendously pleasant fellow. When she walked through a crowded room with Dick, she knew, from the

"There is No Century Plant," He Shamelessly Confessed.

looks of admiration, just what people were saying; that they were an extraordinary handsome couple.

"There is no century plant," he shamelessly confessed.

"I knew it," and she laughed. "I don't mind admitting that it was a point-blank lie," he cheerfully told her. "I wanted to get you out here alone, all to myself," and his voice went down two tones. He did it so prettily!

"My happy, happy childhood days," laughed Gail. "The boys used to talk that way on the way home from school."

"I don't doubt it," and Dick smiled appreciatively. "The dullest sort of a boy would find himself saying nice things to you; but I shall stop it."

"Oh, please don't!" begged Gail. "You are so delightful at it."

He pounced on a corner half hidden by a tub of ferns. There was no bench there, but it was at least semi-isolated, and he leaned gracefully against the window ledge, looking down at her earnestly as she stood, slenderly outlined against the green of the ferns, in her gown of delicate blue sparkling with opalescent flakes.

"That's just the trouble," he com-

plained. "I don't wish you to be aware that I am saying what you call pretty things. I wish, instead, to be effective," and there was a roughness in his voice which had come for the first time. She was a trifle startled by it, and she lowered her eyes before the steady gaze which he poured down on her. Why, he was in earnest!

"Then take me to Lucille," she smiled up at him, and strolled in toward the ballroom.

Willis Cunningham met them at the door.

"You promised me the first dance," he breathlessly informed Gail. He had been walking rapidly.

"I've the second one, remember," Gail reminded her, as he glanced around the ballroom for his own partner, but Gail distinctly felt his eyes following her as she walked away with Cunningham.

"I know now of what your profile reminds me," Cunningham told her; "the Charmeraux 'Praying Nymph.' It is the most spiritually beautiful of all the pictures in the Louvre."

"I wonder which is the stronger emotion in me just now," she returned; "gratified vanity or curiosity?"

"I hope it's the latter," smiled Cunningham. "I recall now a gallery in which there is a very good copy of the Charmeraux canvas, and I'd be delighted to take you."

"I'll go with pleasure," promised Gail, and Cunningham turned to her with a grateful smile.

"I would prefer to show you the original," he ventured.

"Oh, look at them tuning their drums," cried Gail, and he thought that she had entirely missed his hint. The keenest delight in his life would be to lead her through the Louvre, and from thence to a perspective of picture galleries, dazzling with all the hues of the spectrum, and as long as life!

He had other things which he wanted to say, but he calculatingly reserved them for the day of the picture viewing, when he would have her exclusive attention; so, through the dance, he talked of trifles far from his heart. He was a nice chap, too.

Dick Rodley was on hand with the last stroke of the music, to claim her for his dance. By one of those waves of unspoken agreement, Gail was being "ruled in." It was her night, and she enjoyed it to the full.

Van Ploon danced with her, danced conscientiously, keeping perfect time to the music, avoiding, with practiced adroitness, every possible pocketing, or even hem contacts with surrounding couples, and acquitting himself of lightly turned observations at the expiration of about every seventy seconds. He quite approved of her; extraordinarily so. He had never met a girl who approached so near the thousand per cent grade of perfection by all the blue ribbon points.

It was while she was enjoying her second restful dance with Van Ploon that Gail, swinging with him near the south windows, heard the honk of an auto horn, and near the conclusion of the dance, saw Allison standing in the doorway of the ballroom, with his hands in his pockets, watching her with a smile. Her eyes lighted with pleasure, and she nodded gayly to him over Van Ploon's tall shoulder. When the dance stopped she was on the far side of the room, and was instantly the center of a buzzing little knot of persons from out of which carefree Allison sturdily breasting the currents which had set towards the conservatory, the drawing rooms, or the buffet.

"Nobody has saved me a dance," he complained.

"Nobody expected you until tomorrow," Gail smilingly returned, introducing him to the girls. "I'll beg you one of my dances from Ted or some body."

"One will be enough for me, unless you can steal me some more of your own," he told her, glancing down at her, from coiffure to blue pointed slippers, with calm appreciation. "You are looking great tonight," and his gaze came back to rest in her glowing eyes. Her fresh color had been heightened by the excitement of the evening, but now an added flush swept lightly over her cheeks, and passed.

"I'll see what I can do," she speculated, looking at her dance card. "I think one is all you get."

"I'm lucky even to have that," declared Allison in content. "The fourth dance down. That will just give me time to punish the buffet. I'm hungry as a bear. I started out here without any dinner."

Her next partner came in search of her presently, and the music struck up, and Allison, nodding to his many acquaintances jovially, for he was in excellent humor in these days of building, and planning, and clearing ground for an entirely new superstructure of life, circled around to the dining room, where he performed savage feats at the buffet. Soon he was out again, standing quietly at the edge of things, and watching Gail with keen pleasure, both when she danced and when, in the intermissions, the gallants of the party gravitated to her like bees to a magnet. Her popularity pleased him, and flattered him. Suddenly he caught sight of Eldridge Babbitt, a middle-aged man who was watching a young woman with the same pleasure Allison was experiencing in the contemplation of Gail.

"Just the man I wanted to see," announced Allison, making his way to Babbitt. "I have a new freightage proposition for the National Dairy Products consolidation."

Babbitt brightened visibly. He had been missing something keenly these

past two days, and now all at once he realized what it was: business.

"I can't see any possible new angle," returned Babbitt cautiously, and with a backward glance at the dashing young Mrs. Babbitt. He headed instinctively for the library.

Laughingly Gail finished her third dance down. She had enjoyed several sparkling encounters in passing with Dick Rodley, and she was buoyantly exhilarated as she started to stroll from the floor with her partner. She had wanted to find cherub-cheeked Marion Kenneth, and together they walked through the conservatory, and the dining room, and the deserted billiard room, with its bright light on the green cloth and all the rest of the green cloth and all the rest of the green cloth in dimness. There was a narrow space at one point between the chairs and the table, and it unexpectedly wedged them into close contact.

She Was Glad to Rescue Herself From the Whirl of Anger.

With a sharp intake of his breath, the fellow, a ruddy-faced, thick-necked, full-lipped young man who had followed her with his eyes all evening, suddenly turned, and caught her in his embrace.

Gail, turning, hurried out of the side door to the veranda. Her knees were trembling, but the fresh, cold air steadied her, and she walked the full length of the wide porch, trying instinctively to forget the sickening humiliation. She was near a window, and, advancing a step, she looked in. It was the library, and Allison sat there, so clean and wholesome looking, with his pink shaven face and his white evening waistcoat, and his dark hair beginning to sprinkle with gray at the temples. He was so sturdy and so strong and so dependable looking, as he sat earnestly talking with Babbitt. Gail hurried to the front door and rang the bell.

"Hello, Gail," greeted the cheery voice of Allison, as she came in. "My dance next, isn't it?"

His voice was so good, so comforting, so reassuring.

"I think so," she replied, standing hesitantly in the doorway, and thankful that the lights were canopied in this room.

"Got to tell you, Babbitt, and that's important," he hesitated and glanced toward the door. "You'll excuse me just half a minute, won't you, Gail?"

She had noticed that assumption of intimate understanding in him before, and she had secretly admired it. Now it was a comfort and a joy.

"Surely," she granted, and passed on in to the library alcove, a sheltered nook where she was glad to be alone, to rescue herself from the whirl of anger, and indignation, and humiliation—above all, humiliation—which had swept around her. Her face was hot and ached by turns, and she was almost on the point of crying, in spite of her constantly reiterated self-denial, that she must control herself here, when Allison came to the door of the alcove.

"All right, Gail," he said laconically. She felt suddenly weary, but she rose and joined him. When she slipped her hand in his arm, strong, and warm, and pulsing, she was aware of a thrill from it, but the thrill was just restfulness.

"You look a little tired," judged the practical Allison, as they strolled, side by side, into the hall, and he patted the slender hand which lay on his arm.

"Not very," she lightly replied, and unconsciously she snuggled her hand more comfortably into its resting place. A little sigh escaped her lips, deep-drawn and fluttering. It was a sigh of content.

CHAPTER X.

"Gentlemen, There Is Your Empire!"

The seven quiet gentlemen who sat with Allison at his library table, followed the concluding flourish of his hand toward the map on the wall, and either nodded or blinked appreciatively. The red line on his map was complete now, a broad, straight line from the Atlantic to the Pacific, and to it were added, on either side, irregular, angling red lines like the legs of a centipede, the feeders of the various systems which were under control of the new Atlantic-Pacific railroad.

"That's a brilliant piece of engineering, Allison," observed huge Richard Haverman, by way of pleasant

comment, and he glanced admiringly at Allison after his eye had roved around the little company of notables. The feat of bringing these seven men together at a specific hour was greater than having consolidated the brilliant new Atlantic-Pacific railroad.

"Let's get to the details," barked a voice with the volume of a St. Bernard. It came from Arthur Grandin, the head of the Union Fuel company, which controlled all the wood and coal in the United States, and all the oil in the world. His bald spot came exactly on a level with the back of his chair, and he wore a fierce moustache.

"I'm putting in the Atlantic-Pacific as my share of the pool, gentlemen," explained Allison. "My project, as I have told you, is to make this the main trunk, the vertebrate as it were, of the international transportation company. I have consolidated with the A.P. the Municipal Transportation company, and I have put my entire fortune in it, to lay it on the table absolutely unencumbered."

He threw down the Atlantic-Pacific railroad and the Municipal Transportation company in the form of a one-sheet, typewritten paper.

"We'd better appoint someone to look after the legal end of things," suggested the towering Haverman, whose careless, lounging attitude contrasted oddly with his dignified long beard.

"I'll take care of it," said W. T. Chisholm of the Majestic Trust company, and drawing the statement in front of him, he set a paperweight on it.

"The first step is not one of incorporation," went on Allison. "Before that is done there must be but one railroad system in the United States."

Smooth-shaven old Joseph G. Clark nodded his head. There was but one cereal company in the United States, and the Standard, in the beginning, had been the smallest. Two of the heads of rival concerns were now in Clark's employ, one was a pauper, and three were dead. He disliked the pauper.

Robert E. Taylor of the American Textiles company, a man who had quite disproved the theory that constructive business genius was confined to the North, smoothed his gray mustache reflectively, with the tip of his middle finger, all the way out to its long point.

"I can see where you will tear up the east and west traffic situation to a considerable extent," he thoughtfully commented; "but without the important north and south main trunks you cannot make a tight web."

(TO BE CONTINUED.)

OWNED SUCCESS TO CHANCE

Accidental Discovery Enabled Man to Build Machine That Simplified Diamond Separation.

A young man in the Kimberley diamond mines had been experimenting for months in an effort to find a way to separate diamonds from other stones so as to eliminate the tiresome, tedious, hand-picking process. His efforts and labors had all been in vain, but he refused to be discouraged and adhered to his purpose.

One day he was working at his bench when a small diamond and a garnet happened to be lying on a board before him. In some way he tipped the board at such an angle that the two stones rolled together toward the edge. It happened that there was a small crease spot on the board, and as the stones rolled over the edge, one passed on and fell over the edge. Wondering whether this had been a mere accident or whether the garnet possessed the peculiar property of attracting diamonds and allowing other stones to pass over it, he tried again and again with the first diamond and with various others and found that if a board were coated with grease and vibrated slightly while held in an inclined position the diamonds placed on it would be caught and held by the grease, while all of the other stones would roll off. He at once set to work and as a result of his accidental discovery soon built a machine which was a success from the very beginning. In a short time it was doing all of the work that had formerly been done by hand, saving considerable time and expense in the operation.—Pathfinder.

"Classical" Music.

Many people have an idea that only the compositions of the old masters are classical and frequently imagine that these are classical because they belong to the past. It is not antiquity or the name of the composer that determines whether a piece of music is classical or otherwise. The true meaning of classical music is: Compositions which maintain a certain standard; music of the first rank, compositions can be classical and romantic at the same time. The word romantic, as applied to music, means imaginative, fairylike. Music which is classical and at the same time romantic, is more emotional, more fanciful, more poetic and less rigid and formal than strictly classical compositions. For example, Bach's works are, more frequently, strictly classical, whereas Mendelssohn's and Schumann's are both classical and romantic.

Really a Serious Matter.

Two neighbors had a long litigation about a small spring, which they both claimed. The judge, wearied out with the case, at last said: "What is the use of making so much fuss about a little water?" "Your honor will see the serious nature of the case," replied one of the lawyers, "when I inform you that the parties are both milkmen."

Rest Those Worn Nerves

Don't give up. When you feel all unstrung; when family cares seem too hard to bear, and backache, dizzy headaches, queer pains and irregular action of the kidneys and bladder may mystify you, remember that such troubles often come from weak kidneys and it may be that you only need Doan's Kidney Pills to make you well. When the kidneys are weak there's danger of dropsy, gravel and Bright's disease. Don't delay. Start using Doan's now.

Enough.

"Still living out on Long Island? I suppose the mosquitoes are all gone by this time."

"Yes, but we still have the Long Island railroad."

Socially Successful.

Mr. Brown's colored valet desired to entertain some of his friends, and his master contributed generously to the cause. The next morning Mr. Brown asked Mose if his party had been a success. Mose drew himself up a couple of inches above his usual height.

"Was it a success, suh?" he exclaimed delightedly. "Wall, suh, it sho' wuz! Dey wuz 16 invited, and 20 dat come!"

He Was a Boy Himself.

"No," said Uncle Foggy to a group of urchins. "I am not going to walk through your game of marbles, but around it. I was once a boy myself and I know how you feel about it. I am not going to pat any of you on the head and prognosticate that you will be a great man. I was once a tired I got of philanthropic old goops patting me on the head. An old man trying to lam me in the back with a dornick when I start on my way, as having once been a boy myself, I shrewdly suspect you intend to do, or I'll wrap my faithful hickory around you about twice as fast. Haur-raump!" —Knicker City Star.

A Powerful

Physique

Is a valuable asset, but—

Strength of body must be combined with a healthy, active mind, to make for success.

It is well established that both body and brain are nourished and rebuilt daily from food—each taking up the particular elements required.

Grape-Nuts

FOOD

made of wheat and malted barley, supplies all the rich nutriment of the grains, including the vital mineral elements necessary for building stout bodies and active brains.

Grape-Nuts food not only supplies rich, well-balanced nourishment, but is delicious and easy to digest.

CRATER LAKE NATIONAL PARK

By MARK DANIELS, (General Superintendent and Landscape Engineer of National Parks.)

CRATER LAKE National park has been termed by many the eighth wonder of the world. Nestling in the heart of a great mountain which, in ages past, was a living volcano, 6,000 feet above the sea, with its sapphire surface unruffled, reflecting the many-hued surfaces of the 1,000 feet high crater walls which surrounded it, it is undoubtedly one of the most exquisite gems of color to be found in the world. Its blue surpasses the blue of the Bay of Naples in richness and intensity and its somewhat weird surroundings, pregnant with mystery and solitude, are in perfect harmony with the placid repose of its surface.

There are glaciers in many countries, high peaks, water falls, cascades, forests and fields of wild flowers to be found in many lands, but there is only one Crater lake. Individually it is as difficult of attainment in scenery as it is in persons, and in Crater Lake National park one finds it to an extreme degree.

The people of the United States are particularly fortunate in the possession of their national parks in that almost every one of them has a marked and striking individuality and contains within its boundaries some features which will leave a lasting impression and will be a source of joy and pleasure when other things are forgotten; but of all the sights that can be had in the scenic reservations of our country, perhaps none will strike the observer with such force

which, at this latitude is covered with snows for many months of the year; it is however, the most practicable place at which to locate the government headquarters and to establish a small village consisting of a few stores and supply stations. It is not, however, at the rim of the crater and therefore could never, under any circumstances, be a place where tourists would be content to stay, for there is ever the mountain top with the lake beyond beckoning the traveler to the goal of his pilgrimage.

The establishment of the village on the rim of the crater overlooking the lake would be ideal, but in certain seasons the snows are so late in melting that tourists might never reach the village in the season of their travel. The solution, therefore, appears to be a double village or two stations, one at the lower level, which opens several weeks before the upper levels, and one at the rim of the crater. By this means tourists may arrive at the lower station, where accommodations may be found, and proceed to the rim of the crater by foot when the road is not passable for vehicular traffic. At the rim of the crater should be established a secondary village in which sleeping and eating accommodations are provided, together with stores and studios which might supply the want of the tourists.

Sailing and Fishing on the Lake. The desire of the tourist upon arriving at Crater Lake National park is to reach the rim of the crater at the earliest time. Once there, his all-consuming desire is to descend to the surface of the lake and to sail upon

THE PHANTOM SHIP, CRATER LAKE

and will leave as lasting an impression as Crater lake.

Crater Lake National park is in the Cascade range of mountains in southern Oregon. The lake is circular in form and about six miles in diameter. Its surface is at an elevation of 6,177 feet above sea level and is an average of 1,000 feet below the crest of the surrounding crater rim. The great cavity in this mountain was once the crater of an active volcano which, at one time or another, collapsed, leaving a receptacle several hundred feet in depth which is now filled with sparkling blue water, clear as a diamond and of a blue that defies description.

Arranging for Tourists. To make this unique gem of exquisite beauty available to the traveling public has been no simple problem. The park is traversed by roads from the west and from the south and the approaches are along easy gradients and through wonderful forests and alongside beautiful canyons, but upon a closer approach to the ascent to the rim of the crater, the difficulty of reaching the lake becomes more and more serious, and the problems involved in establishing proper accommodations for the tourists and maintaining them throughout the season becomes more and more complex.

The superintendent's house is located several miles from the rim of the crater and at an elevation of 6,000 feet above sea level. This altitude, while more than 1,000 feet below the rim of the crater from which a view of the lake can be had, is still one

this bluest sea about the phantom island and in the shadow of the jagged rim. After he goes this far, his next consuming desire will be to hook the glorious trout which may be seen swimming in the depths beneath his boat. A trip of this sort will only fill him with a further longing to encircle the lake on land around the rim, so that he may drink in the sparkling colors and deeper shadows from all angles. The problem, therefore, which confronts the secretary of the interior is the development of roads and trails about the lake so that the tourist may receive full satisfaction, and to do this, plans have been drawn and work begun on the roads and trails and village.

Congress has appropriated money, which is being expended through the war department, for the construction of an encircling road to be built around the crater. This road is under construction and a material portion of it has been completed. The three entrance roads, one from Medford on the west, one from Klamath Falls on the south, and one along Sand creek on the east, have been completed and are now open to travel. The trail from the rim of the crater to the lake surface indicating the location of the proposed rim village has been constructed and will this year be widened and improved. A lodge or hotel has been constructed on the rim of the crater and roads connecting it with the superintendent's headquarters at Anna Spring at the lower level have been completed.

Free with SKINNER'S Macaroni Products

Send the coupon below and learn how you can get a complete set of **ONEIDA COMMUNITY PAR PLATE SILVERWARE**

free by saving the trade-mark signature from Skinner packages. Silverware of quality. Guaranteed ten years. Beautiful Bridal Wreath pattern.

Skinner's products are made from the finest durum wheat, in the largest, cleanest and most sanitary macaroni factory in America. There are nine kinds of Skinner Products—Macaroni, Spaghetti, Egg Noodles, Cut Macaroni, Cut Spaghetti, Elbows, Soup Rings, Alphabetos, Vermicelli. These can be cooked fifty-eight different ways. Combine with cheap cuts of meat into a delightful dish, or with cheese, tomatoes, fish, mushrooms, oysters, etc.

Skinner's Products cut down wonderfully on meat bills. More nutritious and better for your health too. We will send you a fine recipe book telling how to make many delicious dishes if you will ask for it.

Bumper Grain Crops

Good Markets—High Prices
Prizes Awarded to Western Canada for Wheat, Oats, Barley, Alfalfa and Grasses

The winnings of Western Canada at the Soil Products Exposition at Denver were easily made. The list comprised Wheat, Oats, Barley and Grasses, the most important being the prizes for Wheat and Oats and sweep stake on Alfalfa.

No less important than the splendid quality of Western Canada's wheat and other grains, is the excellence of the cattle fed and fattened on the grasses of that country. A recent shipment of cattle to Chicago topped the market in that city for quality and price.

Western Canada produced in 1915 one-third as much wheat as all of the United States, or over 300,000,000 bushels.

Canada in proportion to population has a greater exportable surplus of wheat this year than any country in the world, and at present prices you can figure out the revenue for the producer. In Western Canada you will find good markets, splendid schools, exceptional social conditions, perfect climate and other great attractions. There

is no war tax on land and no conscription.

Send for illustrated pamphlet and ask for reduced railway rates, information as to best locations, etc. Address Superintendent Immigration, Ottawa, Canada, or

Old Songs.

"Don't you wish the good old songs could be heard again?"

"Such a thing would be impossible. With Zepplins and submarines everywhere, imagine anybody trying to arouse joyous enthusiasm by singing 'Up in a Balloon, Boys,' or 'Sailing Over the Bounding Main.'"

Fair Enough.

"Lend me your automobile this afternoon, will you? I want to take my girl out for a spin."

"Sorry, old man, but I couldn't trust anybody else to run that machine. I'll tell you what we'll do, though. You lend me the girl."

When all others fail to please
Try Denison's Coffee.

Women who are the most careful of their complexions are those who haven't any of their own.

Getting at His Motive.

"Will you have my seat?" he inquired politely.

"On the ground that I am aged and decrepit?" the woman asked.

"No, indeed, madam."

"That I am young and beautiful and possibly not averse to a flirtation?"

"Certainly not. That is—"

"Then it must be because you are a gentleman, in this respect differing from the fat person on the left and the scrawny specimen at the right. I am glad to learn your principles, sir, but here is my seat. Good day."

A Slow Fellow.

Harold—I think I will kiss you. Maude—Don't you ever do things before you think?

Pleasant Work.

"So yez hev a foine job, eh?"

"Sure I haf! I was chief designer in a pretzel factory!"

THE NEWEST REMEDY FOR BACKACHE, RHEUMATISM AND DROPSY

Kidney, Bladder and Uric Acid troubles bring misery to many. When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, heaviness, drowsiness, irritability, headaches, chilliness and rheumatism. In some people there are sharp pains in the back and loins, distressing bladder disorders and sometimes obstinate dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the muscles and joints it causes lumbago, rheumatism, gout or sciatica. This is the time to send Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., 10c for large trial package of "Anuric."

During digestion uric acid is absorbed into the system from meat,

and even from some vegetables. The poor kidneys get tired and backache begins. This is a good time to take "Anuric," the new discovery of Dr. Pierce for kidney trouble and backache. Neglected kidney trouble is responsible for many deaths, and Insurance Company examining doctors always test the water of an applicant before a policy will be issued. Have you ever set aside a bottle of water for twenty-four hours? A heavy sediment or settling sometimes indicates kidney trouble. If you wish to know your condition send a sample of your water to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and describe symptoms. It will be examined without any expense to you, and Dr. Pierce or his medical staff will inform you truthfully. Anuric is now for sale by dealers, in 50c pkgs.

THURSDAY, NOVEMBER, 25 1915

This summer's muddy roads put a
premium on flying machines.

"Early to bed and early to rise,"
also prevents automobile accidents.

No woman makes a fool of a man.
She just puts on the finishing touches.

There are only a few conspicuous
instances where the worst ever hap-
pens.

Auto accidents are far too common
for the comfort of the car riders and
their friends.

Jitneys are declared to be common
carriers. Some of them certainly are
common, very common.

Odd stockings are the latest fad.
Have we finally hit upon something
that offers real economy?

There is nothing in the dyestuff sit-
uation activities when a "clean up-
point up" season comes around.

The Russian bayonet is a long, keen,
deadly-looking instrument, and being
impaled on its point is no joke.

If you want to arouse mingled emo-
tions in a woman, you've only to tell
her how well she holds her youth.

Speaking of the perils of war, an
American aeroplane operator has been
married in one of the belligerent coun-
tries.

When the fight for supremacy of
the seas is over, the war for supremacy
of the air may still have to be
waged.

When hubby brings home the loot
next morning it takes a high-principled
wife to look upon poker playing as a
mortal sin.

America invaded the aeroplane,
now so useful in war. It will also be
recalled that the Chinese invented
gunpowder.

When you see a man who thinks
he knows it all, it is a public calamity
when the fool wagon is late in making
its schedule.

It's seldom that a real hero thinks
himself great. When you subtract
modesty from heroism, there's nothing
left but a windbag.

If a foreign foe should ever capture
the Panama canal, grand old Culebra
could be depended on to block the
channel with a landslide.

That old idea that knowledge is
power has a backset every time a
man with a college education goes to
live with his wife's folks.

A breezy optimist is glad he isn't
among the unfortunates whose in-
comes are so high that they have to
pay 30 per cent of the income tax.

Having failed to settle the question:
How old is Ann? our learned state uni-
versity professors now are tackling the
really important problem: How old is
a fish?

Philadelphia dancing teachers say
that the tango must go. As the tango
has no political pull of any kind, it is
probable that the reform will be ef-
fected.

Arrangements are being made to
heat the trenches of Europe's warring
armies. The time is coming when the
capture of a red hot stove will mean
something.

Science can now compress milk
into poker chips. Professional card
sharpers may hereafter carry a com-
pressor up one sleeve and a quart of
milk up the other.

A Boston scientist argues that in
the hereafter the spirit of the wife is
absorbed in the spirit of the husband.
"Old maids" better get a move on
while life holds out.

Gum-chewing is reported to be a
favorite pastime with the soldiers in
the trenches. If war makes gum-
chewing seem a pastime it's worse
than it has been pictured.

More than 2,400 books have been
printed in Esperanto, says an ex-
change. However, we don't care how
many books are printed in Esperanto;
it's the too many in English that bur-
den us.

Mary Jane is a much safer name
than Pearl or Angeline until the girl
baby gets old enough to show that
she is not going to be as ugly as a
mud fence or have the temper of a
hyena.

One thing you can say for
society matrons. When the
fally arrives it is not more
until the poodle dog
fleas. There is no
a baby.

All love-making is old-fashioned.

Too much limelight seldom im-
proves a cold storage egg.Never talk love to a woman when
she has a mouthful of clothespins.If baseball survives this year one
must think it safe for all time to
come.What would poor paragraphers do if
Carranza should have those whiskers
amputated?Perhaps every 1916 model motor car
will have a rapid fire gun and a tor-
pedo tube.A food specialist says that only a
fool eats fried chicken. He can't hurt
our feelings.Who cannot remember when the
steam calliope sounded better than
grand opera?Coffins are being made of paper in
France. Some persons should insist
on asbestos paper.Soon we are to have our own home
dyes. This will considerably alter the
color of the times.A New York reformer says the rich
need uplifting more than the poor.
Pity the poor rich.The ankle watch, as we understand
it, will not detract attention from the
clock in the stocking.Some men go to military training
camps to learn about war, and some
learn about it at home.The average man will pay \$100
poker losses more cheerfully than he
will a seven-dollar tax bill.If the mosquito is a vegetarian by
nature, as proclaimed, why does he
look upon every man as his meat?Though the pickle crop be a failure
the lovesick young woman in case of
dire necessity can fall back on food.What with tall shoes and short
skirts the height of fashion is finding
it difficult to make both ends meet.The theory that weeds cause hay
fever may explain why some charm-
ing young widows discard them so
soon.A medical journal says there is dan-
ger in face powder. And experience
has taught that there also is some
just back of it.At least there is some consolation
in the thought that more flies were
swatted during the summer just closed
than ever before.Astronomers clearly lack the mili-
tary instinct, else they would have de-
cided long ago that the canals on
Mars were trenches.Golf is a game that requires great
nerve, says an expert. We know a
number of fellows who ought to be
wonders at it then.Motorboat racing commends itself
to the timid spectator. So long as he
remains on shore he is reasonably
safe from the "speed demons."Returning physicians say European
soldiers are made idiots by exploding
shells. Over here, however, we know
a lot who have no such good excuse.There is nothing quite so convinc-
ing, to disinherited heirs, of the in-
sanity of a wealthy relative, as the
bequeathing of the whole estate to
charity.While prominent specialists agree
that golf is a cure for insanity it is
doubtless asking too much at the pre-
sent stage of science to expect a cure
for golf.The schoolboy who wants to know
about conditions in Europe, their
causes and effects, is going to be a
source of some anxiety to the teach-
er this year.It is a small matter for Uncle Sam
to put his hand in his pocket and
in a careless, offhand way take out
a billion or so to lend the distressed
nations of Europe.When the man who tells you he
never told his wife a lie is telling you
the truth, you are very apt to find
some deep scars under his eyes, even
if he has lost an eye itself.The statement that ill-tempered
women invariably turn their toes out
will have the effect of drawing the at-
tention of numerous husbands to the
remarkable fact for the first time.As a matter of fact, we have con-
fidence enough in human nature and
our own intentions to believe that
most men prefer to do right, but the
trouble generally is a lack of sense.An American manufacturer an-
nounces that he has succeeded in pro-
ducing a quality of limburger cheese
that equals the imported article, this
being another of the evil effects of
war.All things considered, newspapers
are said to contain few glaring er-
rors; this, however, won't convince
the woman who finds her name
spelled wrong in the society account
of those present.

"AN' THIS TOM FER LAFE AND MARY"

(Copyright.)

"MOTHER"

Presented by the Chicago Dramatic Club of Chicago,
for the benefit of St. Peter's Church, Antioch, on

SATURDAY EVENING,
NOVEMBER 27th

At the
Antioch Opera House

Under Direction of Mr. M. E. Gueronet

Cast of Characters

Mrs. Katherine Welterill	Miss Helen Hawkins
Wm. H. Welterill	James Gormely
Walter "	Ben Alexander
James "	Fred Belz
John "	Twins Alfred Donnellan
Ardath "	Miss Francis Maloney
Leonore "	Miss Agnes Mulligan
John R. Chase	Charles Tevenan
Harry Lake	Nat Hill
Elizabeth Terhune	Miss Winifred Lagorio

Miss Mary Connors, one of Chicago's well
known sopranos, will be heard in several new
and concert songs including the latest "Mother"

The play "Mother" is given in four acts as follows:

Act I—Sewing Room at Welterill
" II—Parlor at Welterill
" III—Parlor Following Day
" IV—Parlor Following Night

This will be the fourth visit of this Club, giving three other
plays here and always playing to a crowded house.

Buy your tickets early and get a good seat,
a play you will see in any of the city
theaters. Don't fail to see it.

Show Starts at 8 P. M.

Tickets—Reserved Seat 50c.
General Admission 35c.
Children's 15c.

Tickets on
Sale at King's
Drug Store

Beyond Kindness.

When men and women die, and are
beyond all earthly troubles and crises,
then the rule is: "Speak no evil of
the dead." But is it not worse to
speak evil of them while they are
alive, while the evil word can wound
or injure them? Why wait to be kind
and merciful until it is no use what-
ever?

New York's Coal Consumption.

One year's supply of coal for New
York, loaded in fifty-ton cars, would
make a train reaching from that city
to Salt Lake City.

Potted Plants.

When potted plants put a piece of
coarse muslin over the hole in the pot
before putting in the bits of stone and
sand, which keeps the drainage good.
The muslin prevents the earth from
washing away.

Optimistic Thought.

A man's own good breeding is the
best security against another's ill
manners.

Distinction of Little Worth.

The gray wolf's distinction is that
his scalp is worth five dollars, while
that of the coyote brings only one dol-
lar. Most of the distinctions are as
worthless to those who hold them as
the bounty on his scalp is to the gray
wolf.

To Clean Porcelain.

For cleaning white porcelain sinks
and bathtubs use a solution of one pint
of turpentine thoroughly mixed with
one-half cupful of salt. You will find
this does not injure the smooth sur-
face in the least.

Envy Shows Small Mind.

The man who is really big is always
generous in his praise of others who
deserve it; it is only the man who is
little who allows the petty sting of
envy to influence him.—Selected.

Just Wanted to Know.

We were out to dinner and little
brother piped up, just as the meal was
about over: "Father, please pass the
jelly, or is it scenery?"—Chicago Trib-
une.

DIVIDED INTO SIX RACES

Differences in Branches of Mankind
Are Marked—Origin of the
Semitic Peoples.

Sanskrit is the language which was
spoken by the easternmost branch of
the Indo-Germanic or Aryan race. It
cannot, therefore, be said whether the
race or the language peculiar to that
race is the elder, probably the former.
The advent of the Celtic Aryan into
Europe is shrouded in mystery. There
are apparently not even traditions of
their time of emigration. The Semitic
race is one of the six races of man-
kind, and is distinct from the Aryan.
The races are Indo-Germanic or Ar-
yan, white, of Europe, America, Per-
sia, India and Australia. The Mongo-
lian or Turanian, yellow and brown,
Asia. The Semitic, white, Africa,
Arabia, etc. The negro, black, Af-
rica. The Malay or Polynesian, brown,
Australasia. The American Indian,
red, North and South America.

The Semites are supposed to be the
descendants of Shem—that is, the
name originated in this way. The term
was not in general use until the first
quarter of this century, though it was
used in Germany as early as 1781. It
is applied to the races akin to the He-
brew, such as Arabian, or Assyrian.
Some authorities consider the primi-
tive seat of the race to be Africa,
others Arabia, still others the lower
Euphrates. The languages form an
important family, and are divided into
two principal branches, the northern
and southern. To the northern branch
belong the Assyrian and Aramean (or
Syrian), and the Palestinian, (Hebrew
and Phoenician). To the Southern
belong the Arabic and the Ethiopic.

DOG'S CHARACTER A MYSTERY

Owners Unable to Determine Whether
He is a Detective or Inclined
To Kleptomani.

The Newlyweds out in Crescent Hill
are wondering if Rex is a thief or a
detective.

Rex is a dog, a white, woolly dog,
who 15 minutes after having his bath
looks as if he hadn't had a bath for a
week. Rex is not a hunter. He doesn't
know what game looks like. He doesn't
even chase cats. He is afraid of
other dogs. He is so tractable that
he makes friends with anybody who
pays him the slightest attention. He
would be on terms of intimacy with a
burglar in two minutes.

So it can be seen that Rex's owners
had good reason for thinking him
good for nothing, even if they did love
him. Now they are wondering whether
he is worse than good for nothing
or a valuable retriever.

A few weeks ago Mrs. Newlywed
lost a purse containing \$16 in cash.
A long search failed to reveal it, and
it was given up for lost.

Last Sunday Rex walked into the
house with something in his mouth.
He laid his quarry on the floor. It
was the purse and the \$16 were in-
tact.

Now the question at the home of
the Newlyweds is: Did Rex play de-
tective and find that money for its
legitimate owners, or did he return it
after carrying it away himself? Rex's
real character promises to remain a
mystery for a long time.—Louisville
Times.

Would Not Burn Diamonds.

You often hear of people with
money to burn, but so far none has
ever attempted to burn their dia-
monds. The reason why, perhaps, is
because they will burn beautifully.
"A great many people imagine that
diamonds are indestructible," said a
jeweler, who was placing a load of
gems in his safe for the night, "but
as a matter of fact, a fire of diamonds
would be the briskest, prettiest thing
in the world. Diamonds are nothing
but coal-carbon. Put a handful of
diamonds on a plate and set a light to
them. They will burn with a hard,
gemlike flame till nothing is left.
There will be no smoke, no soot, and
at the end the plate will be as clean
as though just washed—not the slight-
est particle even of ash will remain."
Don't try to thaw out your cracked
ice by fire.

In a Bit of a Hurry.

A very small boy was taken to a
dental establishment to have some of
his first teeth pulled. For a second
or so, during which time four teeth
disappeared, everything was fairly se-
rene, and then came howls of objec-
tions.

"I didn't want them teeth to come
out," cried the young patient, sudden-
ly recollecting something. "I want
them to stay in."

"That's all right," consolingly re-
sponded the dentist. "They will soon
grow in again."

"Will they?" quickly rejoined the
boy, with a brightening face. "Do you
think they will grow in time for din-
ner?"—Philadelphia Telegraph.

How It Happened.

"I understand, uncle, that there is
a young colored man in this neighbor-
hood who is turning white?"

"Yassah, and 'bleeged to yo' for de
'terrygation, sah. He's muh son, Hun-
key, and he's not on'y turnin' white,
but he's done plumb turned. Cuhnel
Tolliver got a mess o' bull snakes and
put 'em in his chicken house to keep
de rats away. When Hunkey put his
hand on one o' dem sarpents in de
night, and two mo' clumb up his pants
leg an' anudder quiled round his neck,
he shouted like an evangelist and
turned white den an' dar!"—Kansas
City Star.

LOCAL NEWS AND PERSONALITIES

J. R. Cribb was in Grayslake Tuesday.

Read the program of "Mother" on fourth page.

Mrs. McVey and Mrs. Warriner were in Chicago Tuesday.

The Fisherman and The Treasure Box at the Antioch Sunday.

Mrs. Hucker of Lake Villa was an Antioch visitor Tuesday.

The "Dutchess" lost by 17 pins to the "Mackies" last Friday night.

Mr. Miller of Lake Villa was in Antioch visiting Wednesday.

Mrs. Irene Gray of Chicago is visiting at the home of Jos. Fillweber.

Just arrived a carload of Banner flour \$1.40 per sack. Williams Bros.

Mrs. Potter and daughter Faye and Miss Mathews of Lake Villa were Antioch visitors Monday.

Miss Ella Ham and Henry Ham of Marquette, Wis., were the guests of their sister, Mrs. R. D. Emmons this week.

When at the Ladies Aid bazaar don't forget the Epworth League corner, where they will serve "Johnny Horner pie."

Sunday at the Antioch Theater, "The Penalty" in two parts.

STOP—LOOK—READ. Come to Lake Villa, Thursday night to the big ball in Barnstable hall. The celebrated Brandstetter's orchestra will play. Tickets 75 cents. Supper at Keller's restaurant.

Miss Margaret McCullough who was taken quite seriously ill with appendicitis last Saturday night was on Sunday evening taken to Chicago where she underwent an operation the same night. At present she is getting along nicely.

See the Mutual weekly at the Antioch Theater Thursday.

Last Thursday evening about fifteen of the friends of Lois Thorn gathered at her home to help her pass a happy birthday. The evening was spent in playing games and a dainty lunch was served by the hostess sister Mrs. Wm. Stewart. A pleasant evening was had by all and at a late hour all departed wishing "Lois many happy returns of the day."

Don't fail to see the great drama entitled "Pardoned" at the Antioch Theater.

The Antioch Theater installed a new picture machine this week. Come up and inspect our fireproof booth.

Waukegan's new jewelry store, I can save you money because my rentals low. Compare my prices with the high rent jeweler's prices and see the difference. In have a beautiful catalogue of diamonds, watches, jewelry, and silverware with the price on every article. This catalogue is free to you. Write today for catalogue. Square Deal Roy's Jewelry Store, Roy, Ypsanton, Ill.

"Mother" at the Opera House

The play "Mother" will be produced at the Antioch opera house on Saturday evening, November 27, by the Chicago Dramatic club of Chicago, under the direction of Mr. M. E. Gueronet.

This will be the fourth visit of these players to Antioch, appearing here before in "Day in the Country," "When a Man Marries," and last April in "Broadway Jones." See program on fourth page.

Japanese Breakfast.

The usual Japanese breakfast consists of rice, miso soup, pickles and occasionally fish. Tea is always served with meals, and is drunk clear, without sugar or cream. Miso soup consists of strips of radishes, sea-weed, eggplant, or other vegetables cooked with bean curd and water. The cooking is not continued for a long period, and so few vegetables are used that the soup partakes only slightly of the flavor of the ingredients.

Bluebird a Friend of Man.

Like the robin, the bluebird is very domestic, but unlike the robin, it does not prey upon any cultivated product or work any injury whatsoever to the fruit grower. During the fruit season in fact five-sixths of its food consists of insects. It seems, therefore, that the common practice of encouraging the bluebird to nest near houses by placing convenient boxes in which it may build its home is thoroughly justified.

The Heart Lived In.

Faber has said, "A man's heart gets cold if he does not keep it warm by living in it." Love to others is not a matter of mere outflowing impulse. It must be purposeful and steadfast. It must be to be real warmth in it. Only there is to be real warmth in it. Only the heart that is lived in and used draws others close to its hearth fire.

Charles Webb and Richard Kaye spent Sunday in Chicago.

Sunday at Crystal—Robert Henley in "The Tenor."

Vallette Hanneman visited relatives in Chicago over Sunday.

Mr. C. E. Blunt returned Monday from his western trip.

Ben Drury and Frank Stickle returned from Dakota last week.

Mrs. Eva Harrison and Mrs. F. Hamlin were Chicago visitors Friday.

Georgette Sanborn who has been ill the past month is now on the gain.

Trevor had it slipped over them 192 pins by the "Johannes" Monday night.

Jim Johnson and Miss Helen McCullough were Chicago visitors Tuesday.

Arther Dibble, Frank Hunt, Wm. Van Patten and Lew Felter autoed to Waukegan Tuesday.

Chase Webb, Wm. Hillebrand, Wm. Kelly, Clair Kelly and Percy Chinn were in Chicago Monday.

Tonight at the Crystal—"A Shriek in the Night," 2 acts, also "His Last Word" featuring Daddy Manley.

Don't miss seeing "Mother" Saturday night at the opera house. Tickets on sale at King's Drug store.

Get your seats early at King's Drug store for the play "Mother" Saturday night. Prices 50c, 85c and 15c.

Mr. and Mrs. Elmer Brook and Mr. and Mrs. Ernest Brook entertained relatives from Burlington Sunday.

Fred Hembrook, of Chetek, Wis., stopped here Wednesday on his way home from delivering stock in Chicago.

Mr. Isenbach has sold his farm on the Hickory road consisting of 25 acres to F. J. Scheller of Chicago. Consideration \$9,200.

TONIGHT in the opera house big Thanksgiving dance. Music by Hanneman orchestra. Tickets 75 cents. Supper at Lenore's cabaret.

Don't forget the "Parcel Post" sale given by the "D. A." class on Dec. 17, at the M. E. church. There will be 200 fine parcels for sale also a booth in which there will be many pretty things. Cafeteria supper will be served.

Thursday at the Antioch Theater—"Pardoned" in three acts.

Thanksgiving services will be held in the Methodist church Thursday morning at 9:30 o'clock. This service is for the public. The minister, the Rev. Evett Knight Hester will deliver the sermon. All are invited.

Eyestrain is one of the most common causes of head ache and the chief cause of many nervous derangements. Therefore consult a reliable optometrist. Dr. Barber will be in Antioch at the home of H. J. Barber. His next date is on Thursday.

The Whirligig of Time.

The change of a generation in human nature is infinitesimal and then some. Now it is the bright red automobile, second-hand, for which indians are trading away their valuable lands; nothing but a twentieth century head.

Family Record Hard to Beat.

A family record that is hard to beat is that of a man who has died recently at Ilkeshall, Suffolk, England, aged ninety-eight. He had a brother, eighty-four. He had five children, fifty-one grandchildren, and two great-grandchildren.

North Sea Great Fishing Ground.

Great Britain takes from the North Sea enough fish to supply two pounds each year to each inhabitant.

Mary Paddock was a Burlington Saturday.

Emma Turner of Grayslake spent Saturday in Antioch.

Mrs. and Mrs. Elmer Brook were Evanston visitors Saturday.

Monday at the Crystal—"At the Cross Roads," a big feature in five acts.

Mrs. Edna Cable of Lake Villa visited in Antioch Saturday.

Mrs. Anna Holcher of Trevor spent Saturday with Mrs. Heller.

Mr. and Mrs. M. Burke and daughter Helen were in Chicago Monday.

The drug store will be closed Thanksgiving Day from 1 to 7 p. m. F. M. King.

Chas. Thorn has so far recovered from his recent attack of typhoid fever as to be able to be out.

Friday at the Crystal—Cleo Madison in "The Pines Revenge" in three acts, also Violet Mersehan in "The Unnecessary Sex."

Dr. Turner and Dr. Smith amputated a finger from the hand of J. H. Van Patten on Monday and he is reported as doing nicely.

Mrs. J. R. Cribb who has been in the Garfield Park hospital for the past five weeks is expected home tomorrow (Thanksgiving.)

The drug store will open Sundays until further notice from 8 to 10 a. m., and 7 to 8:30 p. m. F. R. King, residence phone 125-J.

Mrs. E. Newell returned to her home at Nelsville, Wis., last week after spending the past week with her daughter, Mrs. Frank Girard.

You boys and girls who are working for that raincoat, bring in your tablet covers, etc., not later than 8 p. m., December 1st. King's Drug Store.

The Ladies Aid will hold their annual bazaar in the basement of the church on Thursday, Dec. 1. A good assortment of fancy articles suitable for Xmas presents will be on sale. All are cordially invited. Mrs. D. Sablin, Sec.

Saturday at Crystal—Miss Julia Dean and Harry D. Carey in Judge Not or the Woman of Mona Diggers, a big six acts Broadway features. First show at 7 p. m. sharp.

The Hickory Union Cemetery association will hold its annual meeting at the Hickory church, Saturday, Nov. 27, at one o'clock p. m., for the purpose of electing officers and the transaction of other business. It is hoped that every one interested in the cemetery will be present at this meeting. By order of committee.

Family Record Hard to Beat.

Many College Presidents Averse to Students Being Employed While Obtaining an Education.

Becky Sharp was the first society woman on nothing a year. She made the phrase famous and the fact infamous. But there are circumstances under which nothing a year can be a blessing.

The secretary of the Christian association at the University of Pennsylvania announces that over 300 Pennsylvania men are already supplied with work to help them through their college year. In other colleges, perhaps in every college, men are being so aided to get their education. And a surprising number of these men have literally nothing a year besides the income from their work.

There will always be a serious doubt in the mind of college men whether working one's way through college really pays in the end, the Philadelphia Evening Ledger says. College presidents have frequently been quoted as advising students to borrow while they are at college so that their minds and their time may be free for their college work and pleasures. The two together make up a college life. A book education without a social education is hardly worth having.

The college man who works his way through misses much, to be sure, in social contact, in the graces of intercourse with other men. His college is chiefly a place for lectures and "exams." The larger education he gets in pursuit of his tuition fees and room rent, is hardly of the polished and suave kind which college should bring. It differs not at all from what he will meet later on.

College as a preparation for living ought to be broader than any one life. As a foundation for character it ought to be broader than any career. That is why the man who works his way through really loses—because he identifies college with life too soon.

WRONG IDEA ABOUT WORDS

Writer Claims Old Impression That They Express Thought Is Simply a Delusion.

Our modern orators and preachers and politicians are not speaking in order publishers are not speaking in order so much to convince us as to make us act or vote or feel with them. Their words are chains of phrases, strung together almost undesignedly, with a view of pulling us to the cause or party or idea they are supporting.

It is a curious delusion that words express thought, the New Republic remarks. The object of most words is to short-circuit thought. Phrases like democracy, liberty, militarism, the principles of justice and humanity, are not primary meanings at all. They are epithets hurled at us to arouse some desired sentiment, or to create certain warm emotional glows of assent in the mind which receives them. It is the reaction they touch off that makes them significant, not their meaning. Words are such deadly things not because they mean something, but because they get wrapped up with our emotion and pull it up with them when they are seized. In support of the articulate emotion there may be any number of highly rational arguments which have come first. It is the antagonism or the glow of approval, while the evidence has emotion.

He Knew Their Weakness.

During the reign of Louis XV of France the light chaise came into fashion, and great ladies of Paris were seen more and more frequently about the streets. Consequently, says Das Buch, the king besought the minister of police to do something, since the lives of pedestrians were constantly in danger.

"I will do whatever is in my power," replied the police minister. "Your majesty desires that these accidents cease entirely?"

The king replied, "Certainly."

The next day there appeared a royal ordinance that ordered that, in the future, ladies under thirty years of age should not drive chaises through the streets of Paris. That seems a mild restriction; but it is said that scarcely a woman from that time on drove her own chaise. The police minister knew the fact that they were over thirty and that the rest would probably be too old to drive, anyway.

Gilbert Stuart.

Gilbert Stuart (1755-1828) was born in Narragansett, R. I., the son of a snuff-grinder. At the age of fifteen, without any instruction whatever, he began to paint portraits that attracted the attention of a young Scotch artist named Alexander, who took him to Scotland in 1773. In 1774 he returned to America, where he remained for a year. He went back to London in 1775, and for a short time he played the organ in a small church in that city. In 1778 he entered the studio of Benjamin West as a pupil, but later set up a studio of his own, and remained working there for some years. He came back to this country once more in 1782, and painted many portraits in New York and Philadelphia, among them the famous "1795 Washington." In the year 1806 he settled in Boston. His fame rests largely upon his many portraits of Washington.

SAY WORKER MISSES MUCH

Many College Presidents Averse to Students Being Employed While Obtaining an Education.

Becky Sharp was the first society woman on nothing a year. She made the phrase famous and the fact infamous. But there are circumstances under which nothing a year can be a blessing.

The secretary of the Christian association at the University of Pennsylvania announces that over 300 Pennsylvania men are already supplied with work to help them through their college year. In other colleges, perhaps in every college, men are being so aided to get their education. And a surprising number of these men have literally nothing a year besides the income from their work.

There will always be a serious doubt in the mind of college men whether working one's way through college really pays in the end, the Philadelphia Evening Ledger says. College presidents have frequently been quoted as advising students to borrow while they are at college so that their minds and their time may be free for their college work and pleasures. The two together make up a college life. A book education without a social education is hardly worth having.

The college man who works his way through misses much, to be sure, in social contact, in the graces of intercourse with other men. His college is chiefly a place for lectures and "exams." The larger education he gets in pursuit of his tuition fees and room rent, is hardly of the polished and suave kind which college should bring. It differs not at all from what he will meet later on.

College as a preparation for living ought to be broader than any one life. As a foundation for character it ought to be broader than any career. That is why the man who works his way through really loses—because he identifies college with life too soon.

WRONG IDEA ABOUT WORDS

Writer Claims Old Impression That They Express Thought Is Simply a Delusion.

Our modern orators and preachers and politicians are not speaking in order publishers are not speaking in order so much to convince us as to make us act or vote or feel with them. Their words are chains of phrases, strung together almost undesignedly, with a view of pulling us to the cause or party or idea they are supporting.

It is a curious delusion that words express thought, the New Republic remarks. The object of most words is to short-circuit thought. Phrases like democracy, liberty, militarism, the principles of justice and humanity, are not primary meanings at all. They are epithets hurled at us to arouse some desired sentiment, or to create certain warm emotional glows of assent in the mind which receives them. It is the reaction they touch off that makes them significant, not their meaning. Words are such deadly things not because they mean something, but because they get wrapped up with our emotion and pull it up with them when they are seized. In support of the articulate emotion there may be any number of highly rational arguments which have come first. It is the antagonism or the glow of approval, while the evidence has emotion.

He Knew Their Weakness.

During the reign of Louis XV of France the light chaise came into fashion, and great ladies of Paris were seen more and more frequently about the streets. Consequently, says Das Buch, the king besought the minister of police to do something, since the lives of pedestrians were constantly in danger.

"I will do whatever is in my power," replied the police minister. "Your majesty desires that these accidents cease entirely?"

The king replied, "Certainly."

The next day there appeared a royal ordinance that ordered that, in the future, ladies under thirty years of age should not drive chaises through the streets of Paris. That seems a mild restriction; but it is said that scarcely a woman from that time on drove her own chaise. The police minister knew the fact that they were over thirty and that the rest would probably be too old to drive, anyway.

Gilbert Stuart.

Gilbert Stuart (1755-1828) was born in Narragansett, R. I., the son of a snuff-grinder. At the age of fifteen, without any instruction whatever, he began to paint portraits that attracted the attention of a young Scotch artist named Alexander, who took him to Scotland in 1773. In 1774 he returned to America, where he remained for a year. He went back to London in 1775, and for a short time he played the organ in a small church in that city. In 1778 he entered the studio of Benjamin West as a pupil, but later set up a studio of his own, and remained working there for some years. He came back to this country once more in 1782, and painted many portraits in New York and Philadelphia, among them the famous "1795 Washington." In the year 1806 he settled in Boston. His fame rests largely upon his many portraits of Washington.

CLASSIFIED DEPARTMENT

All advertisements inserted under this head at the following rates: Five lines or less, 25 cents for first insertion, 15 cents for each subsequent insertion. More than five lines, 5 cents a line for first insertion, and 3 cents a line for additional insertions.

FOR SALE—Fifteen lots on south-east shore of Grass Lake. High ground and sub-divided. Robert Selter, Antioch.

FOR SALE—An \$80 note on part payment on any piano, with reliable Waukegan piano firm. Will sell cheap. Inquire at this office.

FOR SALE—Driving horse, harness and buggy, complete. All in good condition. Price is very reasonable and will sell on easy terms to responsible party. Anyone needing a horse will do well to look this outfit over before buying elsewhere. A. J. Bartlett, P. O. box 148, Lake Villa, Ill.

WANTED—Small acre tract on any of the small lakes in Northern Lake County. Robert J. Erskine, Waukegan, Ill.

FOR SALE—A base burner heating stove. Will be sold cheap. Inquire at this office.

FOR SALE—House and lot in Village of Antioch. House with modern conveniences, lot 100x140, with garden and barn. Inquire at this office.

Indoor Occupation.

"You must take an interest in outdoor sports," said the physician. "I do," replied the indolent citizen. "They provide my main reading every day."

NEAR GOAL GETS CLUE TO PLOTS

DEFENSES AT GORIZIA,
AUSTRIA, RAZED BY ITALIAN
ARTILLERY.

BIG BATTLE IS NEAR END

Early Fall of Trieste Predicted—Berlin
Announces Capture of Novi-
pazar—Serbs Claim Vic-
tory.Geneva, Nov. 23, via Paris.—It is re-
ported unofficially in dispatches from
Ljubljana, Austria, that the fortifica-
tions of Gorizia have been almost de-
stroyed by the Italian artillery.Intense bombardment of Austrian
positions in the Gorizia zone by Italian
artillery continues, according to the
official statement issued at Rome. A
successful attack was begun north-
west of Oslava, and Italian infantry
obtained a firm footing on part of the
summit of Monte San Michele.The bombardment of Gorizia and
the battle which has been in progress
on the Isonzo front for the last two
weeks has been marked by some of the
bitterest fighting on any front
during the war. The Italians already
hold Montefalco, and this, with the
capture of Gorizia, which seems near,
probably means the early fall of
Trieste to the Italians, which would
give the best part of Austria's coast
line to Italy.The Serbian town of Novipazar,
which is only twenty-five miles from
the Montenegrin frontier, has been
taken by the Germans. This an-
nouncement was made by the war of-
fice at Berlin, which reported also the
capture of 4,400 Serbians on Sunday.The Serbian legation at Rome re-
ports an important Serbian victory at
Laskovats, in the Nish district, after a
battle lasting several days. The Bul-
garian losses, the legation adds, were
enormous.

GREECE WON'T FIGHT ALLIES?

Athens Dispatch Says That King Con-
stantine Assured Kitchener of
Friendship.Paris Premier Skouloudis called on
Lord Kitchener, the British secretary
for war, at the Berlin legation on Sat-
urday the field marshal had a two
hours conference with General Dou-
mami, chief of the Greek general
staff, and Colonel Metaxas, chief as-
sistant on the general staff, at which
the officers accompanying Lord Kitch-
ener were present.Great importance is attached in
political circles to this conference.
The government organ, Embros, af-
firms that the king and the Greek gov-
ernment gave Lord Kitchener formal
assurances that Greece in no case
would take measures hostile to the
quadruple entente and that a concili-
atory solution of the present differ-
ences would be reached."Lord Kitchener and his staff left
Athens late Saturday night."

GRAND STAND FALLS, 10 HURT

3,000 Plunged to Ground During Foot-
ball Game at Madison—PresidentMadison, Wis., Nov. 23.—Nothing
short of a miracle averted a catastro-
phe at Camp Randall on Saturday
when two sections of the north circus
bleachers collapsed under the weight
of 3,000 spectators.The collapse of the bleachers, which
were built on a soft foundation, caused
the death of one person and the injury
of ten others. The bleachers were
built by the city of Madison, and the
city is now facing a lawsuit for the
collapse.

SHOOT AT SERBIAN PREMIER

Assassin Tried by Court-Martial, Sen-
tenced to Death, and Exe-
cuted.Berlin, Nov. 22 (via Sayville).—A
Serbian major made an attempt
against the life of Premier Pachitch
of Serbia at Raska, according to the
Budapest newspaper Alvilvas. The
major fired two shots from a revolver
at Pachitch. Neither reached its mark
and Pachitch succeeded in fleeing into
a nearby house. The major was tried
by court-martial, sentenced to death
and executed. The shooting grew out
of an argument, during which the ma-
jor declared the whole Serbian gov-
ernment was a band of traitors which
"leading the nation to the slaugh-
ter, saving its own skin."

And 13 Ancona Victims.

Ancona, Italy, Nov. 23.—One of the
sinking boats of the Italian liner An-
cona, recently sunk by a submarine,
has been found beached near this port.
It contained 13 bodies, according to a
dispatch received here on Saturday.

Bandits Slay Two Americans.

Douglas, Ariz., Nov. 23.—J. N. Hall,
superintendent of the Mexican ranches
of the Slaughter Land and Cattle com-
pany, has received confirmation of the
killing of Henry Slate and A. N. Har-
per, American ranch employees.ATTORNEY GENERAL GREGORY
SAYS U. S. AGENT WAS
GIVEN EVIDENCE.

SAW GORICAR AND EDITOR

Statement Issued at Washington Says
Important Information Was Ob-
tained Concerning Activities of Aus-
trian Consul Von Nuber.Washington, Nov. 20.—Attorney
General Gregory officially announced
on Thursday that A. Bruce Bielaski,
chief of the bureau of investigation of
the department of justice, at his con-
ference in New York with Dr. Josef
Goricar, former Austrian consul, "ob-
tained much valuable information"
concerning the activities of Austrian
Consul General von Nuber and his as-
sociates.A full report will be transmitted
to the state department. It is ex-
pected that the cancellation of ex-
equatory of Consul General von Nuber
and possibly of other consuls will be
the result.John R. Rathon, editor of the Providence
Journal, with whom Bielaski
also conferred, turned over to the de-
partment official's evidence in sub-
stantiation of Doctor Goricar's
charges.The attorney general's statement
was as follows:"Mr. Bielaski, chief of the bureau
of investigation of the department of
justice, returned after his visit to New
York, during which he conferred with
Mr. Rathon, editor of the Providence
Journal, and Doctor Goricar."While Doctor Goricar may not be
able to testify directly to all matters
under investigation, much information
of a valuable nature was obtained con-
cerning the activity of the Austrian
Consul General von Nuber and his
associates, the details of which cannot
be disclosed at present. Prompt in-
vestigation, however, will be made.

BULGARS TAKE MONASTIR

Last City in Serbia Falls Into Hands
of Teutonic Allies.London, Nov. 20.—The Bulgarians
who entered Prilep on Wednesday
occupied Monastir on Thursday, the
last city of any size in Serbia, accord-
ing to a news dispatch from Salonika.
The capture, which was conceded to
be inevitable when the Serbs lost Ba-
buna pass and Prilep, means practically
the end of the Serbian defense. Re-
treat for the southern army into
Greece, where it faces possible intern-
ment by the Greeks, and retreat of the
central army into Montenegro and Al-
bania appears to be an absolute neces-
sity and is believed to have begun al-
ready.Monastir is only 15 miles from the
Greek border and is the second city in
Serbia in size. It is the last rail head
position to be held by the Serbs.According to a news dispatch from
Athens, the French have captured the
town of Kasturino and the British
have advanced on the Valandovo-Ra-
rovo front.According to news received by Ath-
ens newspapers, the French won a
striking victory over the Bulgarians
on the Tithirkovo-Schovo Krushevitz
days. The Bulgarians are said to have
sustained such heavy losses that they
gave up the fight and retired north-
ward to the right bank of the Vardar
river.

Bulgarian troops operating south-

JOSEPH HILLSTROM IS SHOT

President Wilson's Plea to Governor
Spry Fails to Save the
I. W. W. Poet.Salt Lake City, Utah, Nov. 19.—Jo-
seph Hillstrom, the I. W. W. poet con-
victed of the murder of J. G. Morrison
and the latter's son Arlington, was shot
to death at 7:41 a. m. after efforts by
President Wilson to secure a reprieve
for the condemned man had failed and
after the state board of pardons had
decided that eleven-hour evidence
which had come to light was insuf-
ficient ground for a reprieve.Hillstrom staggered to the chair
plains a broken man. His head
drooped as he was blindfolded and
strapped in the chair. Every one of
the four bullets pierced his heart.
There was no falter in the plans.

Debs Declines Nomination.

Terre Haute, Ind., Nov. 22.—Eugene
V. Debs, Socialist candidate for pre-
sident of the United States in 1900,
1904, 1908 and 1912, in a formal state-
ment on Friday announced that he had
declined the fifth nomination for the
presidency at the hands of his party.

Astor's Pocket Is Picked.

New York, Nov. 20.—Barney Wein-
stein was arrested charged with pick-
ing the pocket of Vincent Astor, the
richest young man in America, just as
Mr. Astor was leaving the Belasco
theater. Mr. Astor lost \$250.

Machinists Strike.

Philadelphia, Nov. 20.—Machine
shop workers employed at the Fayette
R. Plumb tool works, Frankfort, are
on strike. The men say they are get-
ting 18 cents an hour, and they want
30 per cent more.

DEFECTIVE BABY DIES MINE BLAST KILLS 31

CHICAGO DOCTOR REFUSED TO
OPERATE ON CHILD.Declared That Infant Was Deformed
and Braved Criticism for His Act
—Big Problem.Chicago, Nov. 19.—Baby Bollinger
and subnormal, the human
monster, was held in the hand
of Dr. H. J. Haiselden, was allowed to
slip back peacefully into the shadowy
mystery whence he came.Five days was the span of his life.
He came as do all humans, breathed
the breath of life, partook of food,
then slept the unending sleep at the
German-American hospital.Yet he left behind him a nation agi-
tated by his existence to a degree few
full lives bring to pass.His going crowded before the eyes
of every living parent the burning
question:Has a physician the right to judge
whether a life appearing on earth has,
by reason of deformities and physical
handicaps, a right or no right to be
saved?Doctor Haiselden says he could have
saved the baby by an operation to
complete its digestive system. But
the partial paralysis, the current mal-
formations, he declared, were so great
a bar to happiness or attainment that
he did not feel justified in saving the
baby from the death which nature or-
dained.Chicago, Nov. 22.—A jury of Chic-
ago physicians decided on Friday that
a baby born hopelessly defective, Dr.
Harry J. Haiselden was exonerated
from blame for permitting the death
of Baby Bollinger after deciding that
the child, if allowed to live, would be
a menace to the nation.

SENATOR BURROWS DIES

Succumbs at His Home in Michigan
After Notable Record in
America's Life.Kalamazoo, Mich., Nov. 18.—Former
United States Senator Julius Caesar
Burrows died at his home on Tuesday.
Ex-Senator Burrows was born in
Northeast, Erie county, Pennsylvania,
in 1837, but spent most of his life in
Kalamazoo, Mich.With the exception of two short
periods he was in the national house
of representatives until 1895, when he
was appointed to fill out the unexpired
term of United States Senator Stock-
bridge, deceased. In 1899 he was elected
to the regular term and served in
the senate until 1911. He was tem-
porary chairman of the Republican
national convention of 1908. When he
retired from the senate he was ap-
pointed to the national monetary com-
mission.

Gale Hits Old Penn.

Uniontown, Pa., Nov. 20.—A sixty-
mile gale swept Fayette county for
four hours Thursday night, demolish-
ing buildings, tearing down telephons,
telegraph and electric lighting wires
and causing \$100,000 damage.

Roosevelt Not Going to War.

New York, Nov. 22.—Col. Theodore
Roosevelt is not going to Europe to
fight for the allies. His secretary,
John McGrath, issued a statement re-
lative to the report from Canada that
he would fight.

Killed by Black Handers.

New Orleans, Nov. 22.—After he had
received several black hand letters
in which he was warned to "prepare
to go to hell," Vincencio Merino, a
wealthy Italian, was waylaid and shot
to death.MUNDAY IS GUILTY BUSINESS IN CANADA
IS GOODCONVICTED AS WRECKER OF CHI-
CAGO BANK AND ITS SUBSI-
DIARIES BY JURY.

GETS FIVE YEARS IN JAIL

Associate of Former Senator Lorimer
on Verge of Nervous Collapse as
Verdict is Rendered—Jurors Out
Six Hours—Two Others Face Trial.Morris, Ill., Nov. 22.—Late Friday
Charles B. Munday was found guilty
of having conspired with former Sen-
ator William E. Lorimer and others to
wreck the La Salle Street Trust and
Savings bank and its four Chicago
subsidiaries.The jury fixed his punishment at
five years in the penitentiary, the
greatest sentence it could impose.Although the jurors were out for six
hours, it required only a few moments
for them to fix the guilt of the indicted
banker. Only two ballots was taken.
They were unanimous in their belief
that Munday, as vice-president of the
La Salle Street bank, conspired with
William Lorimer, erstwhile United
States senator, and H. W. Huttig of
Muscatine, Ia., to loot the bank and
its allied concerns out of more than
\$3,000,000.Munday was pale and nervous when
the verdict was being read and gazed
pitifully at Judge Stough. He refused
to discuss the case.Arguments on the motion for a new
trial will be deferred for ten days. It
was announced. State's Attorney
Hoyne announced that the trials of
Lorimer and Huttig on similar indict-
ments will take place the first part of
next year.Under double guard and behind
locked doors the jurors began their
deliberation shortly after 4 p. m. on
Friday.The evidence included bank records
and letters between Munday, William
Lorimer and H. W. Huttig. The lat-
ter two were indicted with the defend-
ant on a charge of conspiracy to de-
fraud depositors and others out of
more than \$3,000,000.Assistant State's Attorney Hayden
N. Bell closed his plea for conviction
at the noon recess. His address con-
tained the startling charge that not
only had Munday and his fellow con-
spirators wrecked the La Salle Trust
and its subsidiary banks, but also that
\$228,000 of the alleged loot had been
traced directly into Munday's pockets
and not a word of explanation had
been offered as to its whereabouts.Following the prosecutor's final
argument, Judge Samuel C. Stough
read his instructions to the jury.The instructions were in some re-
spects unfavorable to the indicted
banker, while in others the prosecu-
tion was hit hard. It required nearly
two hours to read those instruc-
tions, which covered every count in
the indictment.The heaviest blow dealt the defense
was when Judge Stough declared that
the law provides that the capital
stock and surplus of banks about to
be organized must be paid in cash
and not in notes or other securities.
The mere failure of the banks,
causing enormous losses to deposi-
tors and others, the court declared,
would be insufficient evidence upon
which to convict.IMPORTANT NEWS
ITEMSLondon, Nov. 19.—The British hos-
pital ship Anglia struck a mine in the
English channel and sank with a loss
of 85 wounded soldiers.There were 385 wounded soldiers
on board the hospital ship, but the
admiralty announced that 300 were
saved.A vessel that was proceeding to
the rescue of those in the Anglia
struck a mine while en route and also
sank.Rome, Nov. 19.—An Austrian sub-
marine has been sunk by an allied
torpedo destroyer in the Mediter-
ranean, it was announced.Oshkosh, Wis., Nov. 19.—Jack Dil-
lin broke a lower left rib for Frank
Farmer in the fourth round of their
scheduled ten-round bout here, the
defeated aspirant to heavyweight hon-
ors remaining on the mat for fully
two minutes.Bloomington, Ill., Nov. 20.—With
many relatives in attendance Mrs.
Lydia Batkin of Homer, celebrated her
one hundred and first birthday anni-
versary. She is well preserved both
physically and mentally.Pittsburgh, Nov. 20.—Contracts for
the construction of 63 locomotives to
cost \$1,500,000 were awarded by the
Pennsylvania railroad. Fifty will be
used on the lines west of Pittsburgh,
and the balance on the Vandalia and
other subsidiaries.

Tariff Conference Called.

Chicago, Nov. 22.—The Illinois Man-
ufacturers' association, believing the
psychological moment has arrived for
active co-operation with congress, has
called a tariff conference for Decem-
ber 7, to be held at Chicago.

Drys Win by 7-Vote Margin.

Alexandria, La., Nov. 22.—Seven
votes majority for prohibition out of a
total vote of nearly 3,000 was an-
nounced here as the result of the offi-
cial canvass of Tuesday's local option
election in Rapides parish.BUSINESS IN CANADA
IS GOODSuccessful Crops and Big Yields
Help the Railway.The remarkable fields that are re-
ported of the wheat crop of Western
Canada for 1915 bear out the esti-
mate of an average yield over the
three western provinces of upward of
25 bushels per acre. There is no
portion of that great west of 24,000
square miles in which the crop was
not good and the yields abundant. An
American farmer who was induced to
place under cultivation land that he
had been holding for five years for
speculative purposes and higher
prices, says that he made the price of
the land out of this year's crop of
oats. No doubt, others, too, who took
the advice of the Department of the
Interior to cultivate the unoccupied
land, have done as well.But the story of the great crop that
Manitoba, Saskatchewan and Alberta
produced this year is best told in the
language of the railways in the added
cars that it has been necessary to
place in commission, the extra trains
required to be run, the increased ton-
nage of the grain steamers.It is found that railway earnings
continue to improve.The C. P. R. earnings for the second
week of October showed an increase
of \$762,000 over last year, the total
being only \$310,000 below the gross
earnings of the corresponding week
of 1913, when the Western wheat crop
made a new record for that date. The
increase in C. P. R. earnings for the
corresponding week of that year was
only \$351,000, or less than half of the
increase reported this year. The
grain movement in the West within
the past two weeks has taxed the re-
sources of the Canadian roads as
never before, despite their increased
facilities. The C. P. R. is handling 2,000
cars per day, a new record. The
G. T. R. and the C. N. R. are also mak-
ing new shipment records. The other
day the W. Grant Morden, of the Cana-
dian Steamships Company, the largest
freighter of the Canadian fleet on the
Upper Lakes, brought down a cargo of
476,315 bushels, a new record for
Canadian shipping. Records are "go-
ing by the board" in all directions this
fall, due to Canada's record crop. The
largest Canadian wheat movement
through the port of New York ever
known is reported for the period up
to October 15th, when since shipments
of the new crop began in August,
4,265,791 bushels have been reloaded
for England, France and Italy. This
is over half as much as was shipped
in the same period. And, be it remem-
bered, Montreal, not New York, is the
main export gateway for Canadian
wheat. New York gets the overflow
in competition with Montreal.—Ad-
vertisement.

WHAT HE WAS LOOKING FOR

Dreary Samuel in Earnest Effort to Se-
cure Employment, but Not of
Course, for Himself."Well, what do you want?" said the
master of the house sternly to Dreary
Samuel, the tattered tramp, as he
stood before him, his hands clasped
together, his head bowed, and his
eyes fixed on the floor.The unemployed man, who had been
looking for work for several days, re-
plied he was looking for a job.This earnest appeal for work made
the householder think that he had mis-
judged a real, honest British laborer
out of work."Ah!" he said, "now you speak like
a man. I like to hear of anyone will-
ing to make an effort. I never thought
you wanted work of that kind.""No more I do," whined Samuel,
shuddering at the bare idea. "It's
work for my wife that I'm a-lookin'
for."—London Answers.

Watched Her Step.

The lawyer was cross-examining a
witness."What time it was when the wife of
the defendant stepped into the taxicab
in front of the National bank?""Yes," replied the witness. "It was
seventeen minutes past one.""Ah, it was seventeen minutes past
one, eh? Now will you please tell the
jury how you happen to be so positive
that it was precisely seventeen min-
utes past one?""Certainly," said the witness. "The
lady was wearing an ankle watch."

Pleasure In Store.

At last!
The careworn lady settled com-
fortably in her chair. The new serv-
ant had come and promised to be a
real treasure. Moreover, the girl
showed a strange appreciation for the
appointments of the well-furnished
house."So you like to work in—oh, nicely
appointed homes," asked the mistress
kindly."I do, mum," she replied. "It's a
real pleasure to have nothin' but ex-
pensive dishes to break!"

Superlatively Inconspicuous.

Knicker—Does Jones amount to
much?
Bocker—No more than a horse at
a horse show.The man who goes through life on a
bluff eventually walks.

The HOME BEAUTIFUL

Flowers and Shrubbery

Their Care and Cultivation

To Have Beautiful Roses Like This Care Must Be Taken of Them in the Fall.

CARING FOR THE ROSES

By EBEN E. REXFORD.

There are several methods of protecting roses at the north. One is to draw the bush together into as small a space as possible, and wind it with straw.

This is a very good method when the work is well done, but, unfortunately, few persons are able to do it well, therefore I advise that it be not done by an amateur.

One objection that can be urged against it, even when the work is done to perfection, is that the straw is likely to attract the attention of mice, and if they make it their nesting place, they are pretty sure to gnaw all the bark off the bushes.

All things considered, laying the plants down flat on the ground and covering them with dry earth or leaves seem to be the best and safest plan for the amateur to follow. It is certainly the easiest one.

The bushes should not be laid down until the cold weather seems likely to set in. I have known great injury done by covering them too early in the season.

If the bushes are old, and have stiff canes, it will be a difficult matter to bend them flat without breaking, or, at least, cracking them. To facilitate this part of the work, and make it possible to do it safely, I would advise digging out some of the soil on the side of the plant toward which it is to be bent. This will allow you to tip the bush over without making any abrupt bends in it.

Such large growing varieties as the climbers, like Queen of the Prairie, Baltimore Belle, and the Rambler, with canes half an inch or more through, cannot be handled with safety. A slight bend makes a fracture in them, and this is advisable to avoid. These sorts I would make into as compact bundles as possible, leaving them in an upright position, and either wind with straw or protect with corn stalks.

Tea roses and the Bengal and Chinese varieties, comprising the so-called ever-blooming class, can be wintered out of doors, at the north, if given the very best of protection, but nine times out of ten they fall up. These I would take up, and pack in boxes of earth,

precisely as the farmer "heats in" late purchased fruit trees.

Then set them in the cellar where the temperature is so low that growth will not be encouraged. Here they can generally be safely wintered. Keep them quite dry. Generally they will not need watering after going into cold storage. If the place in which you put them is dark, all the better.

FLOWER NOTES

The azaleas bloom late in the winter. Make out your lists for seeds and plants early.

Too much fertilizer develops a weak but rapid growth.

Take no chances in fighting insects. Fight to exterminate.

Evaporation takes place slowly from glazed pots, and these may be used with advantage in the hot air of the living room.

Line upon line about overwatering, overfeeding and overcrowding. Turn plants frequently to keep them from being drawn.

Azaleas object to lime water in any form or quantity. Try some other insecticide for ridding the soil of worms in these plants.

Look at the stored roots and bulbs. If any sign of decay, remove the rotten spot and cover quickly with powdered charcoal.

All nonbloomers should be stored in the cellar or other suitable place in order to give room to the flowering and foliage plants.

Shower, spray, dip, wash, scrub; do any and all these things to keep down the insect enemies. Don't let bugs pasture on your plants.

FROST TO FROST FLOWERS

March—Crocuses.

April—English daisies, forget-me-nots, narcissuses.

May—Iris, lily-of-the valley, china pink, violets, wistaria and bleeding heart.

June—Bellflowers, perennial coreopsis, larkspur, foxgloves, phlox, hardy perennials, and sweet williams.

July—Clematis, day lilies, golden glow, hollyhocks and lilies.

August—Phlox.

September—Chrysanthemums.

An Attractive Planting of Trees.

PLANTING OF TREES

Before planting a plan is necessary. Have some idea of the result you hope to achieve, and stick to that idea.

It is a mistake to plant too thickly, as rank-growing shrubs have to be cut out next season. It is better to plant small, well-grown nursery specimens in the places where large trees are permanently desired than to try to plant full-sized trees. Some trees can be successfully transplanted if they have been properly prepared by root pruning. But it is the work of specialists, not for the amateur.

Evergreens ought always to be planted around a permanent home.

The Norway spruce gives quick shelter, although one of its drawbacks is its raggedness. Plant it now, and let it be cut out when other permanent kinds develop.

TREES ARE ATTRACTIVE

The following trees are attractive in flower, fruit and foliage: Flowering dogwood, Cockspear thorn, Washington thorn, Eu, bird cherry, Chokecherry, Wild black cherry, Garland crab, Siberian crab, Japanese crab, Swamp bay, Large-leaved magnolia, Umbrella tree, Cucumber tree, and Mountain ash.

Christmas Gift Ideas for Boys and Girls

By A. NEELY HALL

(Copyright by A. Neely Hall)

THE gifts illustrated below have been designed along very simple lines with the idea of providing articles that can be constructed easily with the tools almost every boy owns.

The spool rack shown in Fig. 1 may be made out of a boxboard three-eighths inch thick. The base piece should be cut about 4 1/2 inches wide and 6 inches long, with the top edge

1. SPOOL RACK

2. CALENDAR BOARD

beveled off all around as shown. Lacking a plane, the beveling can be done by rubbing the edge with sandpaper. The two upright pieces should measure about 3 inches wide and 3 inches high. Cut the sides and top of these on a slant as shown, being careful to get opposite edges equal. If you find it too hard to cut the edges slanted in this way you may leave them straight and possibly round off the top corners instead. After preparing the upright pieces bore a hole through each three-fourths inch below the top and large enough for a nail 1 1/2 inches long to slip through. If you haven't a gimlet with which to bore, make the holes by driving a nail through the pieces. The nail forms a spindle for the thread spool to turn upon. Fasten the uprights at the edges of the base block with nails driven through the base into their ends.

The size to make the little calendar board shown in Fig. 2 depends upon

3. WHISK-BROOM HOLDER

4. CALENDAR PAD

the size of the calendar pad you can get. Various sizes of calendar pads are sold in the stationery stores, and cost two or three cents apiece. When you get the calendar place it upon a piece of wood and mark out around it a design similar to that shown in Fig. 2. A piece of cigar box wood makes a very pretty board, and this wood is easily cut with a sharp knife. Fasten the calendar to the board with small tacks and screw a screw eye into the top edge of the board to hang up the calendar by.

The whisk-broom holder shown in Fig. 3 is made of six easily cut strips (Fig. 3). Cigar-box wood will do nicely. Make strips A and B 1 1/2 inches wide by 4 inches long, C three-fourths inch wide by 4 1/2 inches long, D 1 1/2 inches wide by the length of C, and E and F of the same size as C. Nail strips C, D, E and F to the edges of strips A and B, with C, E and F even with the ends of A and B, and the lower edge of D even with the lower edge of C. Allow the ends of the strips to project as shown. Screw a small screw eye into the center of the top edge of strip D, by which to hang up the rack.

Stain each gift with one of the modern stain finishes sold in paint stores, or, where you have used cigar-box wood, simply rub up the surfaces with boiled linseed oil.

Refusal Pleased Him.

Clerk—Can you let me off tomorrow afternoon? My wife wants me to go Christmas shopping with her.

Employer—Certainly not. We are much too busy.

Clerk—Thank you very much, sir. You are very kind!

THE shops are full of pretty cretonne-covered articles for a girl's room, and so simple are most of these to make that any girl who works carefully can easily duplicate them for acceptable Christmas gifts for her young friends. First of all, there is a sewing box. The proportions may be whatever you wish. If you don't find a box of the right size at home you can probably get it at the grocery store.

The sewing box in Fig. 1 has legs made of strips 2 inches wide, 1 inch thick, and from 14 to 20 inches long, according to the height that you want to have the box. Fourteen or 15 inches is right if you wish to use the box as a bench to sit on.

The cover of the sewing box should be wide enough and long enough to project 3/4 of an inch over the sides

5. SEWING BOX

all around. Therefore you must use the cover boards from a larger box. Nail a pair of wooden strips across them to hold them together (Fig. 3). These strips can be placed upon the under side of the boards in such a position that they will keep the cover from slipping from side to side, and from end to end, when it is placed upon the sewing box. By making the cover to lift off, you will save yourself the trouble of putting on hinges.

Perhaps you can buy a large enough remnant in cretonne for your sewing box. The care with which you put on this covering material will determine whether or not the box will be a success. As a grocery box is more or less rough, and its boards are uneven, it is best to cover the wood with some other cloth, first, for a foundation for the cretonne. Stretch the cretonne over each surface neatly, and use gimp

6. SEWING BOX

tacks for fastening it. Line the inside of the box with plain-colored cambric. Fig. 4 suggests how the inside may be divided off with cloth partitions.

In the sewing box illustrated in Fig. 5 we have something of more elaborate form, though it is no more difficult to make. Fig. 6 shows how the frame is built of two upright strips nailed to one side of the box, and two crosspieces nailed to the uprights. The frame need not be higher than a chair back. Fig. 7 shows the box cover boards fastened together with cross-pieces.

Put on the cretonne covering in the same way as directed for the other

7. SEWING BOX

box. Fig. 5 shows how the frame is covered, with a solid piece tacked over the back, and its edges brought around over the front of the framework strips. Make pockets out of extra pieces of cretonne, to hold unfinished work, patterns, and notions; and form a heading in the pocket edges through which to run elastic.

NATIONAL CAPITAL AFFAIRS

Men of "Black Cabinet" Seldom Employ Disguises

WASHINGTON.—"Head work and leg work are more important than green goggles and false whiskers" for the modern sleuth, according to William J. Flynn, chief of the United States secret service, better known as Uncle Sam's "black cabinet." As a rule dis-

guises are not used by those in the service. If the matter in hand, for instance, requires the collection of information from workmen, a man is chosen who looks the part without a disguise. He simply wears such clothes as workmen wear and affects the manners and speech of the men with whom he mingles.

On the other hand, if the work requires contact with people in a better-dressed walk of life, an operative of "rope" a criminal of that nationality, a German for a German, an engraver to work on an engraver, and so on.

Secret service men are at work all the time. When there is no particular case on hand they are getting a line on the habits, haunts and byways of certain people who seem to be living without apparent effort. The shadowed party does not suspect it, and he may never know. The minute it becomes certain that bad money is circulating he and all the others of his kind in the district are watched. All avenues of escape from the district are guarded and each suspect is shadowed until the game narrows down to the real culprit or culprits. The next thing is to secure the evidence to convict. That accomplished, the arrest is made.

Government "Bug Hatchery" Solves Many Problems

A UNIQUE establishment that might be called a government "bug hatchery," but which is officially known as the eastern field station of the branch of forest insects of the bureau of entomology, is maintained by the agricultural department of the federal government

in the edge of the Virginia village of Falls Church, a few miles from the national capital. It has been the means, since its establishment in 1912, of the solution of many problems that have been vexing telephone and telegraph companies, mine owners and other large users of timber attacked by insects, as well as foresters, manufacturers of forest products, municipal park authorities and individual owners of wood lots. In addition to administrative buildings and laboratories, the field station has four outdoor insectaries equipped with apparatus that is roughly the counterpart for insect rearing of the better-known incubators and brooders of the poultry plant. In these have been reared and studied during the life of the station approximately 10,000 specimens of various insects, including sawflies, ants, parasitic wasps, bees, various two-winged flies and beetles, which, in other ways, are injurious to trees and timber, or which in some cases, strange enough, are beneficial.

In order to have at hand forest material for carrying on the experiments a plantation of 2,800 young forest trees has been established at the station, representing twenty-two species of conifers and eight species of hard woods.

Many of the experiments carried on with forest products have related to the effectiveness of various preservatives in preventing attacks on wood by boring insects, and results have been secured that have been immediately deflected in money saving by large users of woods. No less valuable have been the new processes worked out for protecting shade trees and ornamental shrubs from their voracious insect enemies.

Capital Correspondents Form Cavalry Platoon

TO First Lieutenant Homer M. Groninger, Fifth United States cavalry, Fort Myer, Virginia, has been assigned the task of proving to 28 Washington correspondents that the sword is mightier than the pen—when the other refuses to abide by the decision of the pen.

Lieutenant Groninger, blond, blue-eyed and very "military," is the "C. O." of a platoon of volunteer cavalry authorized unofficially by the war department and composed almost entirely of newspaper correspondents of the national capital. They are smooth-shaven, and bearded, hollow-chested and sway-backed, bow-legged and knee-sprung, and when lined up in an attempt at a military formation they

are a sure-fire laugh producer, but they are in dead earnest and taking the "gaff" as does the meanest "rookie."

When their thirty weeks' course of training shall have been completed they expect to be able to handle themselves almost as well as the average highly trained private in the regular army.

Representing newspapers in all parts of the country, the "scribes" applied to Secretary Garrison for a course of training as a cavalry unit. Mr. Garrison liked the proposal. So did General Scott, chief of staff, and Col. Wilbur E. Wilder, commanding Fifth United States cavalry. Having pledged themselves to a course of thirty weeks, involving every Sunday morning and one hour one night a week, the men were turned over to Lieutenant Groninger to be transformed into the semblance of a military organization.

Groninger is a former instructor at the United States School of Musketry, and believes the prime essential of a soldier in time of war is ability to shoot; and the better trained the subject is in all soldierly qualities, the better able he will be to shoot accurately under trying conditions.

At first the training has been confined to manual of arms, marching and other fundamentals along with sighting and aiming drills, etc. Later the men were put through the regular course of gallery and range practice, and then went up for their rifle record, all to be concluded before the work on horses commences.

Mr. Wilson Ranks High as a Pardoning President

PRESIDENT WILSON was shown in a new light when it developed that official records of the department of justice gave him rank with Lincoln and McKinley as a "pardoning president." When the complete record of pardons and commutations during his first term in the White House is compiled officials of the department believe Wilson will stand at the head of the list in the matter of utilizing the executive power to grant clemency to federal prisoners.

"Taft was a merciful president, but he had a judicial mind and was inclined to sit in judgment on pardon applications as if he were on the bench," an official of the department of justice said in discussing pardon records. "Wilson is not influenced as much by the law as by the heart, and in this way he is much like Lincoln and McKinley."

Roosevelt pardoned fewer criminals and reversed more recommendations of the department of justice than any president in recent years. He believed crime should be punished, and where judges and juries had acted, he was loath to interfere.

The official record of the pardons during the Wilson administration will not be available until Attorney General Gregory makes his annual report to congress. This report, however, will only cover the period up to June 30, last, and will not include the greatly increased number of pardons and commutations which the president allowed since then.

If President Wilson continues his present pace in extending executive clemency, officials declare, he is certain to go to the head of the list, but at any rate it is believed certain that no presidents except Lincoln and McKinley will rank with him in the number of cases of executive clemency shown.

MEBBE I'LL BE PARDONED OUT OF THIS PLACE BY THE PRESIDENT ONE OF THESE DAYS

RURAL NEWS ITEMS

LAKE VILLA

Mrs. O. C. Mathews of Antioch spent Monday here.

Mrs. E. Thayer has recovered from her recent illness.

E. Potter and wife of Gurnee spent Sunday at M. Kapple's.

Mrs. Lola Avery is visiting her brother's family at Round Lake.

On Monday, Nov. 22, a son was born to Mr. and Mrs. J. G. Poulton.

Born to Mr. and Mrs. Paul Avery on Saturday, Nov. 20, a ten pound son.

Paul Avery transacted business in Chicago and Lake Geneva a couple of days last week.

W. J. Sebor's mother, two sisters and a brother and other relatives attended Mrs. Sebor's funeral, Monday.

Leo Barnstable is having a house built on the James Barnstable farm for his use and he will work on the farm with his father.

H. J. Nelson has recently sold his house and lots here to E. T. Shepardson who expects to take possession soon. Mr. and Mrs. Nelson will move to Waukegan to make their home. This has been their home for some years, but they go there to be near their son.

Obituary

Martha E. Richards was born near Lake Villa Dec. 7, 1880 and died at her home here Nov. 21, 1915. She was united in marriage to Will Sebor July 12, 1905, and to them were born three little girls between the ages of 8 to 1, who will miss a loving mother's care. She has been a member of the M. E. church here since she was fifteen years of age, and has always taken an active part in church work. She leaves her husband, a mother and one sister besides her three little girls to mourn her loss, also a host of other relatives and friends. She was sick but a few hours and died of pneumonia. The funeral was held at the church Monday afternoon and the building was packed, showing the esteem in which she was held. Burial took place at Monaville.

RUSSELL

Emil Schultz is deer hunting in northern Wis.

Mrs. Wm. Melville called on friends Saturday.

Mrs. John Crawford returned to Buffalo this week.

Mrs. Larson and children visited over Sunday in Chicago.

Miss Van Fleet is spending Thanksgiving at her home in Milwaukee.

Geo. Robinson and wife of Solon Mills spent Sunday at the Robinson home.

Spencer Crawford and wife are rejoicing over the arrival of a daughter.

George Wilson bid his many friends good-bye on Wednesday. He will begin work at his new yard in Central Wisconsin Jan. 1. Where we wish him success.

MILLBURN

Mrs. John Bonner has been sick for over a week.

Mrs. Sarah Dodge is visiting relatives in this vicinity.

Mr. and Mrs. Wm. Marseles are entertaining company from Texas.

Little Richard Martin is sick with pneumonia but at present writing is on the gain.

The Ladies Aid society will hold a picnic dinner Thursday, Dec. 2. A business meeting.

Leslie Kemper, wife and daughter of Chicago spent Sunday at the home of Jesse Denman.

Mr. and Mrs. Jack Corey will move this week into Mrs. Pollock's mother's house for the winter.

Mrs. Geo. Kennedy, mother of Mrs. E. A. Martin died Monday of pneumonia and Mrs. Martin is ill from the effects of the illness of the others.

Cleans Leather.

A reader of the Christian Science Monitor writes: "I took my handbag to a number of leather stores where they all told me it could not be cleaned, but I learned from a friend that a tablespoonful of oxalic acid dissolved in a quart of cold water cleans cowhide, pigskin and sole leather very satisfactorily."

Irish Language.

The "natural language" of the Irishman is the Gaelic, the old Celtic tongue, which is still spoken, to a certain extent, in Ireland, Wales, the highlands of Scotland and northern France, where the remnants of the Celts are still dwelling.

WILMOT

Miss Elsie Kerwin is on the sick list.

Miss Faber spent the week-end in Chicago.

Miss Grace Carey was in Chicago the first of the week.

Mrs. R. Shottliff entertained company from out of town Sunday.

Ray Bufton and Lyman Sherman autoed to Chicago Wednesday.

Chas. Bruel is taking a few months course in the garage business in the city.

Rollie Hegeman left Friday for a brief visit with friends at Madison.

In spite of the weather Friday night the fair was a success. \$155 was taken in.

A social will be given at the M. E. church Friday evening, light refreshments will be served, free.

Mr. Dund arrived here from Detroit, Thursday and accompanied his wife home the first of the week.

Mr. and Mrs. Lonie returned home from Beloit, Saturday after spending several weeks with relatives.

Mr. and Mrs. Kennedy and daughter of Trevor, Mr. and Mrs. Lonie and Mr. and Mrs. Faulkner were entertained at dinner in the home of Mr. and Mrs. Shottliff in honor of Miss Ruth's birthday.

TREVOR

Mrs. Parks spent Thursday at Channah.

Mike Evans spent the week-end in Chicago.

Geo. Higgins and wife were in Burlington Friday.

Mrs. Lyons and son Gene were Chicago shoppers Thursday.

Mrs. Booth and Mrs. Lubeno were shopping in Chicago Tuesday.

Mrs. Henry Lubeno is visiting with her daughter in Madison.

Mrs. Bolton is entertaining a granddaughter from Bristol.

A parent and mothers society was organized in Trevor school last week.

A car of young people attended the movies at Antioch Monday evening.

Mrs. Hanneman is entertaining a brother and his wife from Minnesota.

Williams Brothers are placing a pipeless furnace in the Wm. Evans house.

Mrs. Parks, Mrs. Boulton and Mrs. Spencer were Antioch visitors Saturday.

Mrs. Mickie and Mrs. Smith attended the cemetery dinner at Mrs. Strahan's Tuesday.

Several from here attended the musical at Antioch Methodist church Tuesday evening.

Mrs. Willis Sheen is still under care of a trained nurse and her condition is still serious.

The Mystic Workers organized a society in Trevor Friday evening with a membership of over forty.

Miss Daisy Mickie, who is attending school in Whitewater will spend the Thanksgiving vacation with home folks.

Margaret Myers visited in Lake Villa Thursday and Friday. Edna Wallace returned home with her spending over Sunday.

SALEM

A. Burdick went to Monroe, Ind., last week.

Mrs. A. Burdick entertained friends Sunday.

Frank Sell and sisters were Kenosha visitors Monday.

H. McVicar and wife visited relatives in Kenosha Monday.

B. Kennedy and wife called at Mrs. Burdick's Saturday.

Wm. Peterson and wife will entertain relatives Thanksgiving.

Stella Rhodes of Beloit College will return home for Thanksgiving.

Peter Peterson and wife are invited to spend Thanksgiving at Bassetts with their folks.

Glen Bray was called home on account of the illness of his mother who has typhoid fever.

The entertainment Friday evening given by the pupils of Salem Center school was well attended and enjoyed by all. Mr. Harper of Madison gave a very interesting talk on education. Mr. Morin of Somers also gave a talk on the same subjects.

Be Merry.

An ounce of mirth is worth a pound of sorrow.—Baxter.

GIANT OF THE MOUNTAIN.

Did you ever hear of the giant who lived on the top of a great high mountain? He slept all day, and at night he would go into the valley and walk over houses. He could step over a house easily. Sometimes he would strike it with his club and make it rock, and the people would say, "How hard the wind blows." Then he would strike the rocks and make sparks fly, and they would call it lightning. His laugh was like thunder, and when he sneezed or whistled they called it a tornado. Sometimes he would drink all the water in the wells, and the people would say, "What a terrible drought." And when he carried off a cow—and he could easily take one under his arm—and once in a while a barn with everything in it, then they knew the giant had been there.

One morning Farmer Burton awoke to find all his winter supplies gone, and his old horse Nancy, which his little boys, Hans and Oscar, loved very much.

"What shall we do?" cried Mother Burton. "We shall starve, and poor

He Could Step Over a House Easily.

Nancy, we never shall see her again."

After breakfast Hans and Oscar talked it over themselves and decided to try to find Nancy. They told their mother they were going to hunt for Nancy, and they wanted some lunch, as they might not be back that night. Mother Burton told them it was useless to hunt anywhere but on the mountain where the giant lived, and they could not go there, and if they ever did reach the top the giant might keep them, but as they never had heard of the giant taking children, they started for the mountain.

They climbed all the morning, and at noon sat down to eat their lunch under a tree. A little old man came along, and they gave him some of their food and told him what their errand was. He told them that he knew about the wickedness of the giant, and would help them a little. He had a staff in his hand, which he gave to Oscar and Hans and told them it would help them up the mountain. He also told them that if they could get the big belt which the giant wore he would lose his power and become as small as an ordinary man, and do no more harm. The boys thanked him and started on their journey.

Hans had the staff, and soon he was well up the mountain, and poor Oscar was far behind, so Hans waited for his brother to come up to him; then Oscar took the staff, and in a few minutes he was far ahead. He waited for Hans, and they decided it must be the staff, so they both took hold of it, and sure enough they moved up the mountain at a rapid rate, for the little old man had given them a magic staff.

Soon they were on the top of the mountain, and they could see the giant's feet sticking out of a cave.

"Shall we go closer?" asked Hans. "Of course," said Oscar. "What did we come for? There is old Nancy over by that tree."

Nancy saw them and neighed and called to them in horse language. They had just reached her when the giant awoke. He stood up and took one step, which brought him beside the boys.

"What are you doing here, you little scamps?" he roared.

"If you would sit down, we could tell you; you are so tall we cannot see your face, and we want to talk to you."

"Oh, you do?" said the giant. "What do you want to say? You are so small I could pick you up with my thumb and finger and drop you off the mountain."

"But that would not do you any good," said Oscar, "and it would kill me. Will you please come down nearer the ground?"

The giant walked around and made a roaring noise, but the boys stood still, although their hearts were beating fast. The giant pulled up a tree and threw it on the ground, and seated himself upon it.

"Now what do you want?" he asked. Oscar did the talking, so he told the giant that he had their horse Nancy and they had come for her.

"You cannot have her," said the giant. "I am going to eat her."

"She will not be very tender," replied Oscar, "for she is very old." He was almost crying at the thought of poor Nancy's fate.

"Oh, that will not bother me," said the giant; "look at my teeth." He opened his mouth, and the boys moved away, for it was large enough to swallow them whole, and his teeth looked like big stones.

He laughed when he saw the boys were frightened, and it shook the mountains; the boys were glad when he became serious again. But he would not let Nancy go, and told them they should keep them also; they were so small he liked to look at them, and it made him seem so very large. The boys were quite frightened, and Hans, who had remained silent till then, said, "If you don't let us go home in a few days we will stay and work for you."

"What can you do?" said the giant. "We can try to do anything you ask us," replied Hans.

"Well, amuse me, then. Can you dance?"

"Not very well, but we can sing," said Hans, who had been struck with a happy thought.

"Well, sing then," said the giant. The boys sang a funny song, and the old giant laughed so hard that he rolled off the tree onto the ground. Then the boys began singing soft, low songs. The giant pulled a big stone under his head and listened. Soon his eyes began to close, and after a while he was fast asleep.

Hans stopped singing, but told his brother to keep on while he crept over to the giant and very gently unfastened the belt he wore. Then he brought Nancy to where Oscar was still singing, and they both mounted. Hans told Oscar to hold the staff in both hands while he held the belt. Nancy trotted away with the boys, but soon she seemed to be flying so fast did they go, and almost before they knew it they were at the foot of the mountain, and there the little old man was waiting for them. They returned his staff, and thanked him very much for lending it to them. He told them to bury the belt in the ground when they reached home.

The sun was just setting when they rode into the yard, but they told their father and mother about the belt, and Father Burton said they must bury it at once, which they did and in the morning they went to the mountain and recovered all the supplies which had been lost.

That night, after Oscar and Hans were in bed, Oscar said: "I should like very much to have seen the old giant when he awoke and found he was only as large as an ordinary man."

"Yes," said Hans. "But I am glad I am at home."

EASY WAY OF MAKING MONEY

Refraction of Rays of Light Causes Curious Illusion—Clever Little Trick Illustrated.

One need not be a magician to make money, as the following trick will show. First pour clear water into a glass until it is half full; then throw a bright piece of money into the water and cover the glass with a plate. If the glass is now turned around rapidly, the piece of money

will be seen gleaming on the plate, and a second piece will be seen swimming on the surface of the water. It is refraction of the rays of light which causes this curious illusion, for, the moment the glass is restored to its original position and the water ceases to move, the second piece of money disappears.

Kindness to Sisters.

A schoolmaster in the country delivered an address to the scholars, of which the following passage is an example:

"You boys ought to be kind to your little sisters. I once knew a bad boy who struck his little sister a blow over the eye. Although she didn't fade and die in the early summer time, when the June roses were blooming, with the sweet words of forgiveness on her pallid lips, she rose and hit him over the head with a rolling pin, so that he couldn't go to school for more than a month, on account of not being able to put his hat on."

Drowning Season Is On.

This is the drowning season—the time of year when the boys and girls who don't know how to swim go under in the streams and lakes and never come up again. Every boy and girl, for that matter, ought to be taught how to swim.

Higher Aspirations.

Auntie (watching artist at work)—Don't you wish you could paint as well as that, Tommy?

Tommy—I can!—London Opinion.

SURVIVALS OF OLD STYLES

Interesting to Trace the Various Periods Denoted by the Clothes of English Servants.

By a large number of interesting survivals, says the London Times in its report of Mr. Wilfred M. Webb's lecture before the Ethnological society, dress illustrates the innate conservatism of humanity.

Among these survivals is the hat-band, the original purpose of which was to hold a piece of cloth or linen round the head. A picture exists of an Egyptian figure dated 3500 B. C., the headgear of which consists of a piece of linen, with a band tied round it that terminates in two tails at the back. A survival of that is to be found in the tails of the present-day Scottish bonnet and of the sailor's cap. Again, the clocks on stockings were originally a species of ornamentation put on to hide the seams where the stuff was joined together. The "points" on the backs of gloves originally were strips of braid used to cover the seams in the gloves of early times.

Men of fashion, when they tired of particular suits of clothes, have always given them away to their servants, and the practice has resulted in some styles of servants' costume familiar to us in modern days. The groom, for example, represents a gentleman of the beginning of the nineteenth century, and he still wears the belt that ladies used to hold on by when riding behind on the pillion. The footman, with plush breeches and powdered hair, is a gentleman of the time of George III.; the short's coachman, with full-skirted coat and wig, is a gentleman of the time of George II.; and the Lord Mayor's coachman and suite are very fine gentlemen of the time of George III. In the twentieth century we hand on our evening clothes to the waiters who stand behind us at the dinner table.

RACE MARK IN THE FACE

Subtle Sign of Clanship That May Have Had Its Origin Numerous Centuries Ago.

No eloquence of tongue, nothing that stands written in any book, may sway the heart as does that elusive quality—the race mark in a face. And this is true less of the obvious physical aspect than of its thousandth secret connotations. All the world knows the Hapsburg lip, the jaw line of the Bonapartes; the subtle marks of clanship keep their eloquence for their own. Conspicuously or not, each family group stands before these symbols as the small company of the learned might before some inscription on a desert ruin. Mere strokes and scratches to you and me. To the few who understand here is the key that unlocks the past.

So the family look. In the arch of an eye orbit, the curve of chin, we read the signature of race. Chance imprints maybe, maybe seal of some struggle so profound as to have set our lips at this particular angle, or through dimming attentions to perpetuate a gesture born a thousands years ago in joy or in some stark agony of body or of soul.

The family look. The first we remember; the last we shall forget.—Elizabeth Robins in Harper's Magazine.

Salt-Water Cataracts.

There are a good many salt-water cataracts in existence. They may be found in Norway, southern Chile and British Columbia, where narrow fiords, or arms of the sea, are obstructed by barriers of rock. The rising tide flows over and filters through such reefs into the great natural reservoirs beyond, but the water is held back at the ebb until it breaks over the obstruction in an irresistible torrent. Most curious of all is the waterfall at Canoe Passage, where the island of Vancouver approaches the British Columbia mainland. Here the flood tide from the Gulf of Georgia to the southward is held back at a narrow cleft between two islands until it pours over in a boiling cascade 18 feet high, with perhaps double the volume of the Rhine. At the turn of the tide, however, the waters from the north rush back into the gulf, producing a cascade of equal height and volume. The waterfall actually flows both ways.

The Cheerful Japanese Ad.

Japanese advertisers, according to "The Cosmopolitan," in the Boston Evening Transcript, believe in a lavish use of superlatives. "The paper we sell," runs the announcement in a Tokyo stationer's window, "is as solid as the hide of an elephant." "Step inside!" is the call of a big shop in the same city. "You will be welcomed as fondly as a ray of sunshine after a rainy day. Our assistants are as amiable as a father seeking a husband for a dowryless daughter. Goods are dispatched to customers' houses with the rapidity of a shot from the cannon's mouth."

Remarkable Birth Record.

What is believed to be a record in childbirth was established recently by a Maharratta woman in Bhor state, East India. This woman, at the age of thirty-three, gave birth to quintuplets, two males and three females. All were born alive, but it was not expected they would live, "owing to the want of nursing." The same mother gave birth to three children last year, but all died within three months. A record of bearing eight children in a year is believed to be unequalled in medical annals.

TWO ODD OPTICAL ILLUSIONS

Three Circles Seem to Chase Each Other in Same Direction—Wire Hoops Are Quite Puzzling.

There are some tricks that can be played on a person's eyes which are pure illusions. Hold this paper a foot or more from your eyes and turn it gently round to the right or left in small circles, keeping your eyes fixed on the three rings.

As you move the paper round like the hands of a watch you will find that the rings in these circles seem to chase each other in the same direction, and the longer and more intently you look at it the faster they go.

Circles can be made with spokes in them which to some persons seem to

Circles Chase Each Other.

be going in the opposite direction to that in which the paper is turned, but the illusion is not so perfect unless the circles are much larger than there is space for in this column.

Here is another curious optical illusion that has puzzled a great many persons who have tried to account for it.

If we suppose these to represent wire hoops, which of them is nearest you, A or B? The answer is that it is the one you first make up your mind is nearest you. But now if you look steadily at it for a few moments your eyes will get tired of that idea and will suddenly shift that hoop to the farthest away from you, in spite of your wishing to keep it as it was, and

Wire Hoop Illusion.

after you have looked at it in its new position for a space it will go back again.

If you do not decide which is the nearest to you at first, but just look at the middle hoop steadily, you will find them one way, perhaps with A front and toward you, and then A suddenly go back and B will be front.

THE SAW ESAU SAW

"Esau sawed wood. Esau Wood would saw wood. All the wood that Esau Wood saw, Esau Wood would saw. In other words, all the wood Esau saw to saw Esau would saw. And oh! the woodsaw with which Wood would saw wood. But one day Wood's woodsaw would saw no wood, and thus the wood Wood sawed was not the wood Wood would saw if Wood's woodsaw would saw wood. Now, Wood would saw wood with a woodsaw that would saw wood. So Esau sought a saw that would saw wood, and one day Esau saw a saw saw wood as no other woodsaw would saw wood. In fact, of all the woodsaws Wood ever saw saw wood. Wood never saw a woodsaw that would saw wood as that wood-saw Wood saw would saw wood, and so I saw Esau Wood saw wood with the woodsaw Wood saw saw wood."

TEACH BOYS MILITARY DRILL

Australian Youths Enter Ranks of "Junior Cadets" at Age of Twelve—Must Be a Soldier.

Australian boys begin their military career at the age of twelve years when they enter the ranks of the "Junior Cadets" and drill under the instruction of their schoolteachers. Their target practice is limited to shooting what is popularly known as the "twenty-two" rifle.

At the age of fourteen the school boy is graduated into the "Senior Cadets," and here his military training begins in dead earnest. He learns to care for his rifle which the government furnishes to him. The state also gives him an olive drab military uniform. He learns the movements of squad and company formations and learns to deploy as skirmisher.

The Australian schoolboy becomes a soldier irrespective of his own wishes in the matter, or those of his parents. Truancy officers, such as in this country watch the attendance at school, in Australia hale into court the parents of boys who are absent from their military drill, and it is no infrequent occurrence for heavy fines to be levied on parents who are indifferent to their sons' military education.—The American Boy.

Keep Something in Reserve. Don't tell all you know. Maintain some reserve. There is nothing more useless than a dry well.
